June 15, 2026

Dear Frisco ISD Community,

It is with great pride and a spirit of transparency that I present the 2026-27 Annual Budget Report for the Frisco Independent School District.

Frisco ISD adopted a balanced General Fund budget for 2026-27, including a modest staff pay raise, even as enrollment continues its fourth year of decline from our 2022 peak of 66,789 students. To get there, the District leaned heavily on our priorities-based budgeting process: reviewing every open central-office position for need and efficiency, standardizing class loads to match enrollment, and generating \$9.8 million in staffing efficiencies. This work reflects a deliberate, ongoing effort to scale our organization to match the student population we serve, while protecting the classroom.

In the Child Nutrition Fund, declining participation in school lunch and breakfast programs has kept us at deficit for two years. District leaders are actively evaluating ways to rebalance those programs over the next year.

On the debt side, 2026-27 follows a pivotal year. After voters declined three bond propositions on the November 2024 ballot, we shifted our capital strategy by redirecting remaining 2018 bond funds and Tax Increment Reinvestment Zone revenue to the District's highest-priority maintenance needs through 2027. At the same time, we refinanced more than \$485 million in outstanding debt, saving taxpayers over \$152.2 million in future interest. The 2026-27 Debt Service Fund budget continues that discipline, directing any surplus toward retiring principal and preserving capacity for a future bond proposal.

None of this happens in isolation from the state's funding picture. The 89th Texas Legislature's House Bill 2 delivered a historic \$8.5 billion biennial investment in public education, but nearly all of it was earmarked for specific purposes, leaving little flexibility for local priorities. Lawmakers themselves have since acknowledged in interim hearings that it falls short of actual costs. Set against a funding formula that isn't indexed to inflation, this budget reflects the balance we continue to strike between honoring our staff, protecting instruction, and living within the revenue the state provides.

Every decision in this document connects back to the Board's budget priorities and the District's Comprehensive Sustainability Plan — our long-term framework for remaining financially healthy, agile, and focused on students as Frisco matures from a fast-growth district into a stable, established community.

This document is structured to meet the requirements of the Meritorious Budget Award (MBA) of the Association of School Business Officials International (ASBO) and the Distinguished Budget Presentation Award of the Government Finance Officers Association (GFOA). The report comprises four sections:

- Executive Summary — Introduces the reader to the document as a whole. This section highlights and summarizes the most important information in the rest of the report and may be used as a stand-alone overview of our 2026-27 budget.

- Organizational Section — Provides the context and framework within which the budget is developed and managed.
- Financial Section — Contains the adopted budget and comparative financial information for each of the District’s budgeted funds, along with explanation and analysis of significant changes from the prior year.
- Informational Section — Contains additional information to add context to the budget.

I encourage you to review this report in full. It offers not only financial detail but a window into the strategic goals and systems that make Frisco ISD a destination district. It has been a privilege to help steward the trust placed in our team by this Board and community, and I’m grateful for your continued partnership in supporting public education in Frisco.

Sincerely,

**Kimberly Smith, CPA**

Deputy Superintendent of Business & Operations

A photograph of a classroom scene. A woman with long brown hair, wearing a white t-shirt with the words 'FRIDAY' in large, colorful letters (F: red, R: pink, I: yellow, D: orange, A: blue), is leaning over a wooden table. She is looking down at a young boy with dark hair, who is wearing a red polo shirt and is also looking down at the table. On the table, there are art supplies: a green plastic tray with two green cups containing pencils, a white paint palette with several wells of red and orange paint, and a piece of white paper with a drawing of a rainbow. In the background, there are shelves with books and art supplies, and a colorful wall with red, orange, yellow, and green sections. A sign on the wall reads 'Drawing' and another one says 'FUTURE'. A poster on the wall features the names of artists: DALLI, VAN GOGH, DEGA, MATISSE, SEURAT, MONET, and DAVID.

# EXECUTIVE SUMMARY

We are pleased to present the 2026-27 budget for the Frisco Independent School District (FISD). This budget has been prepared for the twelve-month period from July 1, 2026, through June 30, 2027, in accordance with state regulations and local policies.

Frisco ISD is located about 30 miles north of Dallas, Texas, and encompasses 75 square miles in Collin and Denton counties, including most of the City of Frisco and portions of neighboring Plano, McKinney, and Little Elm. Many families choose to call Frisco ISD home for our outstanding reputation for academic excellence, innovative programs, and a wealth of extracurricular opportunities.

At the heart of our success is a student-opportunities model that has guided the District through three decades of explosive enrollment growth. With the support of parents and the community, leaders remain committed to creating personalized learning environments, as evidenced by our mission to know every student by name and need. This philosophy drives our day-to-day efforts to understand each child’s unique circumstances, strengths and weaknesses, and the role we must play to ensure each student reaches their full potential.

It is also reflected in the deliberate way we have built and configured our schools. Elementary schools serve 700-plus students in grades K-5, middle schools serve 800-1,000 students in grades 6-8, and high schools serve up to 2,100 students in grades 9-12.

FISD currently enrolls more than 62,000 students in 12 high schools, 17 middle schools, one intermediate school, 43 elementary schools, and 3 special programs schools.

**SHERRIE SALAS**  
Place 6

## District Administration

Trustees work with the Superintendent as a team of eight to set the District's direction with the education and well-being of school children as their primary focus. The Superintendent is supported by an administrative cabinet known in Frisco ISD as the Instructional Support Team. Members of the Instructional Support Team, along with other executive leaders, oversee the District's daily operations and provide support and guidance to our campuses and central offices.

### 2026-27 Instructional Support Team

# STRATEGIC PLANNING

Frisco ISD is committed to ongoing reflection and continuous improvement to better serve students, staff, and the community. Rather than relying on a static long-term strategic plan, the District uses a Dynamic Organizational Strategy process that allows leaders to continuously evaluate needs, respond to changing conditions, and align resources and actions to the priorities that matter most.

Each year, the Board of Trustees identifies district-level strategic priorities informed by stakeholder feedback, needs assessments, and district performance data. District leadership teams then develop measurable goals and aligned action plans to advance those priorities through the lens of the Future-Ready Framework, which serves as the foundation of Frisco ISD's continuous improvement and local accountability efforts.

The [District Improvement Plan](#) connects the Board's annual priorities to the work of campuses and departments. Goals are monitored throughout the year and outcomes are reported through the District's local accountability system.

## Future-Ready Framework

Frisco ISD's [Future-Ready Framework](#) describes the conditions the District commits to creating for every student. The framework reflects the community's belief that student success is more than academic achievement alone. It represents a whole-child approach that ensures students are healthy, safe, engaged, supported, and challenged so they are prepared not only for what comes next, but for the futures they create.

The framework includes six focus areas:

| FUTURE-READY FOCUS AREA                 | DESCRIPTION                                                                                                                                                                     |
|-----------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Learning Organization                   | Frisco ISD is an organization where people continually expand their capacity to create desired results by intentionally adapting behaviors based on new knowledge and insights. |
| Basic Conditions for Learning           | Frisco ISD understands that students' physical, emotional, and environmental needs must be met for learning to occur.                                                           |
| Guaranteed & Viable Curriculum          | Frisco ISD provides a comprehensive framework of learning standards that ensures all students have access to high-quality content at the appropriate time for mastery.          |
| Differentiated Instruction & Assessment | Frisco ISD's instructional design responds to individual student needs and interests through varied learning experiences and meaningful assessments.                            |
| Positive Culture                        | Frisco ISD is a school community intentionally designed to build relationships that support academic, social, behavioral, and emotional growth.                                 |
| Learner-Centered Experience             | Frisco ISD promotes collaboration, creativity, and problem-solving through authentic learning experiences.                                                                      |

## 2026-27 Strategic Goals

For the 2026-27 school year, the District Improvement Plan identifies three district-level strategic goals. These goals are aligned to the Future-Ready Framework and are supported by department-level goals, action plans, and measurable indicators of success.

| STRATEGIC GOAL                                                                                                                                                                                                                       | FUTURE-READY ALIGNMENT                                                                                                                                         | MEASURES OF SUCCESS                                                                                                                                                                                                                                                                                                                                                                                               | BUDGET CONNECTION                                                                                                                                                                                                                           |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Goal 1: Instructional &amp; Grading Consistency</b>                                                                                                                                                                               |                                                                                                                                                                |                                                                                                                                                                                                                                                                                                                                                                                                                   |                                                                                                                                                                                                                                             |
| The District will strengthen grading, feedback, and instructional expectations to ensure campuses align their practices with the District's standards of mastery and student accountability.                                         | Differentiated Instruction & Assessment: Students receive and use clear feedback to understand progress and determine next steps in learning.                  | Completion of revised grading and retesting guidance; increased staff understanding of district grading expectations; reduced variability in identified grading and assessment practices across campuses; improved student and parent clarity regarding academic expectations and feedback; implementation evidence from campus instructional monitoring processes.                                               | Supports investments in curriculum, assessment, instructional leadership, professional learning, campus support, data systems, and staffing necessary to improve consistency across schools.                                                |
| <b>Goal 2: Future-Ready Learning &amp; Postsecondary Readiness</b>                                                                                                                                                                   |                                                                                                                                                                |                                                                                                                                                                                                                                                                                                                                                                                                                   |                                                                                                                                                                                                                                             |
| The District will strengthen engagement in programs, pathways, and learning experiences that prepare students for postsecondary success while developing the skills and habits necessary for long-term success in an evolving world. | Guaranteed & Viable Curriculum The instructional program delivers consistent rigor and equitable opportunities for all students to master essential standards. | Increased student participation in identified CCMR-aligned programs, pathways, and learning experiences; improved student perception data regarding the relevance and purpose of learning; implementation of district guidance regarding effective and balanced technology integration; evidence of instructional practices that promote real-world application, student engagement, and postsecondary readiness. | Supports investments in academic programming, Career and Technical Education, instructional materials, technology integration, fine arts, athletics, student opportunities, and programs designed to attract, retain, and prepare students. |

| STRATEGIC GOAL                                                                                                                                                                                                                             | FUTURE-READY ALIGNMENT                                                                                                                                                                                         | MEASURES OF SUCCESS                                                                                                                                                                                                                                                                                                                                                                                                              | BUDGET CONNECTION                                                                                                                                                                                                    |

| <b>Goal 3: Organizational Effectiveness &amp; Staff Retention</b>                                                                                                                                                                          |                                                                                                                                                                                                                |                                                                                                                                                                                                                                                                                                                                                                                                                                  |                                                                                                                                                                                                                      |
| The District will strengthen organizational effectiveness by implementing strategies that increase efficiency, clarify expectations, strengthen professional support, and empower staff with effective tools and decision-making autonomy. | Learning Organization<br>Stakeholder feedback is used to improve the daily school experience.<br>Positive Culture<br>Respectful, kind, and effective communication defines how the school community interacts. | Improved staff perception data related to workload, support, and role clarity; increased staff retention in identified employee groups; increased implementation and use of efficient workflows, tools, and support systems; increased staff participation in targeted professional learning for high-need areas; evidence of improved organizational responsiveness and operational efficiency across campuses and departments. | Supports investments in compensation, employee support, professional learning, operational systems, workflow improvements, communication tools, staff retention strategies, and department-level efficiency efforts. |

## Department Goal Alignment

In addition to district-level strategic goals, Frisco ISD departments develop annual improvement goals aligned to operational needs, stakeholder feedback, and the Future-Ready Framework. Department goals help ensure that instructional and operational departments continuously evaluate and improve the systems, services, and supports that impact the student and staff experience.

Department goals may support one or more district-level strategic priorities, address department-specific operational or compliance needs, or strengthen foundational systems necessary for the District to function effectively. Together, these goals create alignment between district priorities, daily operational work, and the long-term conditions necessary to support future-ready learners.

For 2026-27, department goals include work related to instructional consistency, student opportunity, staff retention, operational efficiency, communication clarity, campus support, emergency readiness, financial and compliance training, partnership development, and effective technology use. Progress toward department goals will be monitored throughout the year as part of the District's continuous improvement and local accountability processes.

# BUDGET DEVELOPMENT

The District adopts budgets for the General Fund, Debt Service Fund, and Child Nutrition Fund. Each budget is presented on the modified accrual basis of accounting, consistent with generally accepted accounting principles. The District is not legally required to adopt budgets for capital projects funds or special revenue funds other than the Child Nutrition Fund.

The School Board approves and may amend each fund's budget at the function level. Since the District's fiscal year begins July 1st, the annual budget must be prepared by June 20th and adopted by June 30th.

## Priorities-Based Budgeting

Since 2016, Frisco ISD has utilized a priorities-based budgeting (PBB) approach to develop spending recommendations and ensure a balanced and sustainable financial plan. The PBB model was adopted by Frisco ISD with the goals of identifying individual and programmatic priorities that align with overall District priorities, analyzing the costs of those priorities, and identifying savings opportunities by reducing or eliminating spending in areas that are either less aligned or no longer efficient. Over time, the model has been refined and adapted to best meet the needs of our district.

## Department Budgets

Central departments use a modified zero-based budget process through which each departmental budget owner prepares a proposed budget to be reviewed and approved by the Instructional Support Team (IST).

Each budget owner begins by identifying and prioritizing their spending needs for the upcoming year and developing a preliminary budget proposal. They then review their department's historical budgets and spending to (1) ensure they did not miss anything in their preliminary proposal and (2) to use the PBB methodology to identify opportunities for more efficient spending.

### Budget Principles

Meet the community standards and goals and objectives adopted by the Board of Trustees.

Prioritize the distribution of funds to address the needs of the District in relation to both the academic and operational functions of the District.

Allocate personnel in a manner that will maintain the effective and efficient practices adopted by the District.

Ensure the development and maintenance of the instructional program at the highest possible level of excellence while addressing the needs created by growth in the student population.

Maintain the District's efforts to continue as one of the top-rated school districts in the state.

Our budget principles guide our prioritization of budget requests. The PBB philosophy helps us continuously improve our operations and make sustainable decisions by prioritizing the requests that will have the greatest impact and evaluating the most efficient ways to accomplish our goals.

## Campus Budgets

Campus appropriations are based on a weighted per-pupil allotment. In addition to the per-pupil allotment, central departments allocate funds to each campus for fine arts and athletics programs, physical education, and library books.

Campuses, like departments, use the PBB methodology to allocate their annual appropriations. However, since campus appropriations change annually based on student counts, campus principals are not asked to return appropriations to help fund other priorities.

Individual campus and department budgets are included on pages 59-85.

## Personnel Budgets

Personnel units are allocated to each campus annually by the Human Resources Department based on projected student enrollment for the upcoming school year. Human Resources ensures compliance with state-mandated student-teacher ratios and district-wide target class sizes. Requests for new departmental personnel units may be submitted to the Instructional Support Team for review based on individual organizational needs.

The Finance department, in coordination with HR's Compensation team, annually budgets payroll costs for allocated positions in accordance with the Board-approved compensation plan. The budget process for personnel includes an annual review and adjustment for savings from attrition, turnover, and vacancies.

## Budget Calendar

The District's fiscal year runs from July 1 to June 30. The budget process begins in the fall and ramps up in the spring, culminating in a budget that is adopted by the School Board in late June of each year.

### JULY 2025

- ✓ Receive certified tax rolls from the Central Appraisal Districts and submit information to TEA to determine the M&O tax rate

### AUGUST 2025

- ✓ Adopt the tax rate
- ✓ Update the 2025-26 budget and multi-year financial plan to reflect the final certified tax levy

### SEPTEMBER 2025

- ✓ Close the 2024-25 fiscal year and review final budgeted vs. actual expenditures
- ✓ Receive updated demographic projections from PASA

### OCTOBER 2025

- ✓ Capture the 2025-26 student enrollment snapshot

### NOVEMBER 2025

- ✓ Update the 2025-26 budget and multi-year financial plan to reflect updated enrollment projections

### DECEMBER 2025

- ✓ Develop preliminary staffing needs for 2026-27
- ✓ Open the budget request process for departments
- ✓ Individual budget meetings with Board members

### JANUARY 2026

- ✓ Develop preliminary personnel recommendations for the upcoming budget year
- ✓ [School Board Budget Workshop #1](#)

### FEBRUARY 2026

- ✓ Finalize per-pupil allocation (PPA) for campuses and distribute budget worksheets

### MARCH 2026

- ✓ Salary benchmarking
- ✓ Department budget proposals
- ✓ [School Board Budget Workshop #2](#)

### APRIL 2026

- ✓ Compensation discussions
- ✓ Peer District financial benchmarking
- ✓ Preliminary taxable values and final revenue projections

### MAY 2026

- ✓ School Board Election
- ✓ [School Board Budget Workshop #3](#)
- ✓ Publish "near final" budget and compensation plan to website

### JUNE 2026

- ✓ Public hearing regarding the budget
- ✓ Adopt the 2026-27 Budget and Compensation Plan
- ✓ Publish the 2026-27 Budget Book

# CRITICAL FACTORS INFLUENCING THE BUDGET

The two most critical factors influencing the annual budget are projected enrollment growth and available revenue. Enrollment drives the number of classes needed, the number of staff to hire, the amount of money to spend on existing programs, and the potential need for new programs or supports. Available revenue is influenced by enrollment, the economy, our ability to levy property taxes, and the will of the Texas Legislature. All budget recommendations brought forth during the annual budget process must be balanced against these challenging, somewhat uncontrollable factors to ensure the long-term health of the District.

For a better understanding of how the District generates revenue, a brief explanation of school district funding, titled "[School Finance 101](#)," is available on the Financial Transparency page of the District's website.

## Enrollment

With more than 62,000 students, Frisco ISD is the 10th-largest school district in Texas. Our enrollment peaked in 2022 at 66,789 and has been steadily declining since. Although areas of the district are still being developed and new families are moving in every day, the number of graduating seniors outpaces new student enrollment. The District's demographers project continued decline for the next 5-8 years until our largest secondary classes graduate and enrollment stabilizes.

### Historical and Projected Enrollment

# Funding

Employment competition and the overall cost of doing business continue to strain the operating budgets of every school district in Texas. Unlike for-profit businesses that can raise prices to cover costs, school districts operate on a fixed-income formula developed by the state’s legislature. The revenue we derive from the education funding formula is based on student attendance and is not indexed to inflation.

The 89th Texas legislature made a historic investment in public schools through House Bill 2 (HB 2), allocating approximately \$8.5 billion over the biennium toward teacher and staff pay raises, operational support, school safety, and special education. While these investments were significant, the impact on individual districts has varied. Additionally, most of the new funding was directed toward specific costs. One year into the biennium, lawmakers acknowledged in interim hearings that the investment has fallen short of their expectations and public schools remain underfunded compared to the actual costs of education.

# Property Taxes

Property tax revenue is the primary source of income for public schools in Texas. The education funding formula requires districts to levy and collect a specified “local share” to receive maximum state funding. Over the last decade or more, Frisco ISD has experienced dynamic growth in both home and commercial property values, intensifying the tax burden on homeowners in our area. Our tax base has also benefited from new construction within the city of Frisco and neighboring areas. Since 2017, we have added more than \$18.5 billion in new property to our tax rolls, and existing properties have appreciated by more than \$14.2 billion.

## Historical Property Value Growth

# 2026-27 BUDGET

## General Fund

Although enrollment is declining and per-student funding remains insufficient statewide, the Frisco ISD School Board remains committed to balancing the General Fund budget each year and scaling down operations with enrollment to support a more sustainable long-term financial plan. When enrollment began to decline in 2022, the Board and District leadership began working toward a balanced budget while prioritizing classroom instruction, student opportunities, and staff compensation. This ongoing work includes:

- Evaluating every open position in central office for need and efficiency, which has generated over \$1.5 million
- Standardizing class loads to adjust for declining enrollment, which has generated over \$33 million in staffing efficiencies to date, including \$9.8 million in savings for the 2026-27 budget.
- Constantly reviewing individual department budgets through our PBB process to pay for inflationary cost increases without impacting the bottom line.
- Identifying and implementing new revenue streams when available before cutting programs.

Since 2016, the Finance Department has benchmarked spending per student to peer districts across the state to identify spending efficiencies. External auditors also conducted efficiency audits in 2023 and 2024 to help identify potential budget cuts. The findings of both our peer benchmarking and the external efficiency audits show that FISD has routinely spent below the peer group median for the past decade, so district leaders have targeted budget cuts in areas we believe will have the least impact on overall student learning.

Ultimately, the 2026-27 budget was balanced, with a modest staff raise included. More details about the General Fund budget can be found on page 48.

## Child Nutrition Fund

The Child Nutrition Fund budget has been operating at a deficit for the past two years, in part because district-wide enrollment and participation in school lunch and breakfast programs is declining. While balancing the General Fund has been our top priority, district leaders are actively evaluating options to increase revenue and student participation in the Child Nutrition Fund.

## Debt Service Fund

In November 2024, voters rejected three bond propositions that would have authorized an additional \$1.1 billion in debt to fund capital projects through 2030. As a result of the failed election, we revised our debt management strategy to focus on reducing our overall debt burden until a new bond proposition can be presented to the community. We refinanced over \$485 million in outstanding debt during the 2025-26 school year, saving taxpayers more than \$152.2 million in future interest and shortening the debt repayment period.

The 2026-27 Debt Service Fund budget was developed with the assumption that any surplus funds will continue to be used to retire outstanding principal and lower the District's overall debt burden in preparation for a future bond proposal.

# ORGANIZATIONAL SECTION

# ABOUT FRISCO ISD

Frisco ISD is an independent public education agency recognized by the State of Texas to provide appropriate educational services to students in prekindergarten through 12th grade. Our campuses are located in Collin and Denton counties, and we serve communities in

Frisco, Plano, McKinney, and Little Elm. We currently serve more than 62,000 students in 12 high schools, 17 middle schools, 1 intermediate school, 43 elementary schools, and 3 special program centers.

Many families choose to call Frisco ISD home for our outstanding reputation for academic excellence, innovative programs, and a wealth of extracurricular opportunities. At the heart of our success is a student opportunity model that has guided the District through three decades of explosive enrollment growth. With the support of parents and the community, leaders remain committed to creating personalized learning environments, as evidenced by our mission to know every student by name and need. This philosophy drives our day-to-day efforts to understand each child's unique circumstances, their strengths and weaknesses, and the role we must play to ensure each student reaches their full potential.

## Education in FISD

Frisco ISD believes nothing is more important than hiring the best people to work with students each day and providing them with the best possible support and resources. In our classrooms, highly qualified and caring teachers strive to know every child by name and need in order to personalize each student's educational experience.

Curriculum is written in-house by FISD educators to emphasize critical thinking, writing, and problem-solving. Rigorous lessons set high standards for achievement and challenge all learners. Current and emerging technologies are integrated across all content areas to extend student learning and keep them engaged in the process.

Employees engage in continuous professional learning and collaborate with their peers to evaluate and improve teaching practices and to target students' individual goals. By working together and supporting one another, we share responsibility for each student's learning and growth.

## HOW WE WORK

### → Mission

Frisco ISD's core purpose is summed up by our mission to **know every student by name and need**.

### → Vision

In Frisco ISD, **students are empowered to pursue their passion and purpose**.

FISD's Future-Ready Framework is a set of conditions that operationalize our vision. The framework consists of six focus areas that serve as the foundation for our continuous improvement efforts.

### → Priorities

The Board of Trustees annually adopts strategic goals, aligned with the Future-Ready Framework, to ensure Frisco ISD's vision is being carried out in alignment with community input. These strategic goals help district and campus leaders focus their time, energy, and resources for targeted improvement over the coming year.

### → Systems

Systems refer to programs, practices, and policies that support our work. The District reviews data, conducts an annual needs assessment and proposes changes to programs, practices or policies through our continuous improvement efforts based on the Board's adopted priorities.

### → Resources

Once goals are set for the year, District and campus leaders must evaluate whether resources, including people, money, and time, are adequate to meet our goals. We cannot effect change without proper resources.

### → Results

Each improvement effort will produce some return on investment, and the District must have a mechanism to measure the effectiveness of the system change. FISD's local accountability system provides a mechanism for reporting data and other success measures aligned to the future-ready framework.

## Special Programs

Special program services are provided in the District on home campuses or through centralized programming. These include Gifted and Talented, Special Education, ESL/Bilingual, Dyslexia, Accelerated Reading/Math Instruction, and Credit Recovery.

The District's Career and Technical Education Center offers more than 30 programs of study for high school students to explore their futures, while the Student Opportunity Center provides extra support to help struggling students reach their maximum potential. A free, full-day prekindergarten program is offered at the Early Childhood School and elementary schools across the District for qualifying families.

FISD offers a growing number of choice programs. Bright Academy offers the International Baccalaureate Primary Years Programme, Project Lead the Way Launch, and Spanish language enrichment. Frisco High School offers the International Baccalaureate Diploma Programme, and Lebanon Trail High School offers the Navy National Defense Cadet Corps. These unique learning opportunities are available to students across the District through an admissions process.

## Extracurricular Opportunities

Frisco ISD offers art, band, cheerleading, choir, dance, drill team, orchestra, and theatre for secondary students interested in fine arts. Some schools are also home to harp programs.

When it comes to athletics, middle school students compete in basketball, cross country, football, soccer, tennis, track and field, and volleyball. High schools also offer baseball, golf, softball, swimming and diving, and wrestling. All FISD high schools with varsity team programs compete in the University Interscholastic League (UIL) 4A or 5A classification.

In addition to fine arts and athletics, a wide variety of clubs and organizations are available at the secondary level, including both curricular and non-curricular activities. The majority of middle and high school students are involved in some sort of school-related activity outside of the classroom.

At the elementary level, students participate in special programs including physical education for lifelong health and music and art for lifelong appreciation. In addition, clubs such as Student Council, Green Team and KC (Kindness & Compassion) Club promote leadership and other important life skills.

# Student Demographics

## District Governance

Frisco ISD is governed by a non-compensated, seven-member Board of Trustees who act as the District’s policymaking body. Board members are elected at large by FISD citizens to three-year, staggered terms. They not only represent the public but also translate students’ needs into policies, goals, and strategies that reflect the community’s standards and values. In addition to general oversight and governance, Trustees are charged with calling trustee and other school elections, adopting and amending the annual operating budget, setting the tax rate, setting salary schedules, acting as a board of appeals for student and personnel matters, and employing the Superintendent of Schools. Trustees work as a team of eight with the Superintendent to set the direction of the school district, with the education and well-being of schoolchildren as their primary focus. Information about individual School Board members can be found on page 1.

# Administrative Organizational Chart

# BUDGET PARAMETERS

The annual budget is developed within a set of budget parameters that guide financial planning, resource allocation, and long-term decision-making. These parameters reflect the Board's commitment to maintaining strong student opportunities, supporting staff, aligning resources with enrollment, and protecting the long-term financial health of the District.

Frisco ISD is entering a new chapter as enrollment declines and the community continues to mature. The District's [Comprehensive Sustainability Plan](#) provides a long-term operational and financial framework to help the District remain sustainable, agile, and prepared for the future. The Board budget parameters connect that long-term sustainability work to the annual budget process by ensuring budget decisions are grounded in student needs, fiscal responsibility, transparent data, and the community's expectations for high-quality schools.

| PARAMETER                                           | FRISCO ISD APPLICATION                                                                                                                                                                                                                                                                                        |
|-----------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Serve Students First                                | Budget recommendations should prioritize the District's core mission to know every student by name and need. Decisions should protect strong academic programs, student opportunities, and the supports necessary for students to learn, grow, and prepare for the future.                                    |
| Maintain a Balanced and Sustainable Budget          | The District will seek to adopt a structurally balanced budget in which ongoing expenses are supported by ongoing revenues. When budget reductions are necessary, the District will prioritize recurring savings and avoid relying on one-time solutions to solve ongoing financial pressures.                |
| Align Resources With Enrollment                     | Staffing, facility use, department budgets, and operating costs will be reviewed annually against enrollment trends and student needs. As enrollment changes, the District will adjust resources thoughtfully while working to preserve the quality of programs and services families expect from Frisco ISD. |
| Support the Comprehensive Sustainability Plan       | Budget decisions will support the District's long-term sustainability framework, including facility planning, academic and program strategy, financial sustainability, talent and workforce planning, and transparent communication with the Board and community.                                             |
| Prioritize Classroom Instruction and Campus Support | The District will prioritize resources that have the greatest impact on teaching, learning, student support, and campus operations. Administrative and central support costs will be evaluated for alignment, efficiency, and contribution to campus and student success.                                     |
| Recruit and Retain High-Quality Staff               | Compensation, staffing, and workforce recommendations will be developed with attention to recruitment, retention, market competitiveness, and long-term affordability. The District will continue to balance staff support with available revenue and sustainability targets.                                 |
| Use Data to Guide Decisions                         | Budget recommendations will be informed by enrollment projections, staffing ratios, facility utilization, academic and program data, financial forecasts, benchmark information, and other measures that help the District evaluate need, impact, and return on investment.                                   |

| PARAMETER                           | FRISCO ISD APPLICATION                                                                                                                                                                                                                                                                                         |
|-------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Diversify Revenue Where Appropriate | The District will continue to evaluate opportunities to generate or preserve revenue through programs and services that align with Frisco ISD's mission, including student attraction and retention strategies, tuition-based programs, facility rentals, partnerships, and other local revenue opportunities. |
| Plan Beyond the Budget Year         | Budget decisions will be evaluated for both current-year and long-term impact. The District will maintain multi-year financial forecasts to understand how enrollment, legislation, staffing, compensation, debt, capital needs, and operating costs affect future budgets.                                    |
| Communicate Transparently           | The District will provide clear, consistent information to the Board, staff, families, and community regarding budget assumptions, financial challenges, progress toward sustainability goals, and the trade-offs involved in major budget decisions.                                                          |

## Sustaining Local Revenue

Frisco ISD evaluates opportunities to generate or preserve local revenue when those opportunities align with the District's mission and do not create a disproportionate administrative burden. Major local revenue sources include tuition-based prekindergarten, facility rentals, fare-based busing, student device protection fees, athletics revenue, and interest earnings.

While these revenue sources are not expected to replace the need for adequate state funding, they reflect the District's ongoing effort to responsibly generate local revenue, maximize existing assets, and reduce pressure on the General Fund where possible.

| REVENUE SOURCE                | PURPOSE                                                                                                                                                     | FUND         | BUDGET CONSIDERATION                                                                | 2026-27 BUDGET IMPACT |
|-------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------|-------------------------------------------------------------------------------------|-----------------------|
| Tuition-Based Prekindergarten | Provides access to prekindergarten for students who do not qualify for state-funded pre-K while generating revenue to help offset program costs.            | General Fund | Included in the 2026-27 budget based on projected participation.                    | \$1,200,000           |
| Facility Rentals              | Allows community organizations and outside groups to use District facilities when space is available and the use does not interfere with school operations. | General Fund | Included in the 2026-27 budget based on approved rate increases and historical use. | \$4,742,000           |
| Fare-Based Busing             | Provides an optional transportation service for families who do not qualify for regular bus service, using available seats on existing routes.              | General Fund | Included in the 2026-27 budget based on projected participation.                    | \$ 1,274,700          |

| REVENUE SOURCE                 | PURPOSE                                                                                                                                                                                       | FUND              | BUDGET CONSIDERATION                                                                           | 2026-27 BUDGET IMPACT |
|--------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------|------------------------------------------------------------------------------------------------|-----------------------|
| Student Device Protection Fees | Helps offset repair and replacement costs for accidental damage to student Chromebooks.                                                                                                       | General Fund      | Included in the 2026-27 budget based on annual student participation.                          | \$651,000             |
| Athletics Revenue              | Includes ticket sales, event revenue, tuition and fees for the Iron Horse Swim Club, and other athletics-related income that helps offset the cost of athletic programs and event operations. | General Fund      | Included in the 2026-27 budget based on historical activity and projected participation.       | \$3,800,000           |
| Interest Earnings              | Generates investment income from available cash balances in accordance with the District's investment policy.                                                                                 | All adopted funds | Included in the 2026-27 budget based on projected cash balances and interest rate assumptions. | \$19,500,000          |

In addition to the revenue sources included in the 2026-27 adopted budget, Frisco ISD continues to evaluate additional local revenue opportunities that may be implemented during the school year. These opportunities are not included in the adopted budget because implementation timelines, participation levels, and revenue estimates were not finalized when the budget was developed.

Potential future revenue sources include tuition-based à la carte course offerings through Frisco FLEX, expanded advertising and sponsorship opportunities, and lease agreements for cell tower placement on District property where appropriate. Each opportunity will be evaluated for alignment with District priorities, operational feasibility, community impact, and long-term sustainability before implementation.

## LOCAL BUDGET POLICY

### CE(Local) Policy

#### Fiscal Year

The District shall operate on a fiscal year beginning July 1 and ending June 30.

#### Budget Planning

Budget planning shall be an integral part of overall program planning so that the budget effectively reflects the District's programs and activities and provides the resources to implement them. In the budget planning process, general educational goals, specific program goals, and alternatives for

achieving program goals shall be considered, as well as input from the District- and campus-level planning and decision-making committees. Budget planning and evaluation are continuous processes and shall be a part of each month's activities.

## Budget Meeting

The annual public meeting to discuss the proposed budget and tax rate shall be conducted as follows:

1. The Board President shall request at the beginning of the meeting that all persons who desire to speak on the proposed budget and/or tax rate sign up on the sheet provided.
2. Prior to the beginning of the meeting, the Board may establish time limits for speakers.
3. Speakers shall confine their remarks to the appropriation of funds as contained in the proposed budget and/or the tax rate.
4. No officer or employee of the District shall be required to respond to questions from speakers at the meeting.

## Authorized Expenditures

The adopted budget provides authority to expend funds for the purposes indicated and in accordance with state law, Board policy, and the District's approved purchasing procedures. The expenditure of funds shall be under the direction of the Superintendent or designee who shall ensure that funds are expended in accordance with the adopted budget.

## Budget Amendments

The Board shall amend the budget when a change is made increasing any one of the functional spending categories or increasing revenue object accounts and other resources.

# LEGAL BUDGET REQUIREMENTS

## CE (Legal) Policy

### Authorized Expenditures

A district shall not lend its credit or gratuitously grant public money or things of value in aid of any individual, association, or corporation. *Tex. Const. Art. III, Sec. 52; Brazoria County v. Perry, 537 S.W.2d 89 (Tex. Civ. App.—Houston [1st Dist.] 1976, no writ)*

A district shall not grant any extra compensation, fee, or allowance to a public officer, agent, servant, or contractor after service has been rendered or a contract entered into and performed in whole or in part. Nor shall a district pay or authorize the payment of any claim against the district under any agreement or contract made without authority of law. *Tex. Const. Art. III, Sec. 53; Harlingen Indep. Sch. Dist. v. C.H. Page & Bro., 48 S.W.2d 983 (Tex. Comm'n App. 1932)*

The public school funds may not be spent except as provided by Education Code 45.105. The state and county available funds may be used only for the payment of teachers' and superintendents' salaries and interest on money borrowed on short time to pay those salaries that become due before school funds for the current year become available. Loans for the purpose of payment of teachers may not be paid out of funds other than those for the current year.

Local funds from district taxes, tuition fees, other local sources, and state funds not designated for a specific purpose may be used for the purposes listed above for state and county available funds and for purchasing appliances and supplies; paying insurance premiums; paying janitors and other employees; buying school sites; buying, building, repairing, and renting school buildings, including acquiring school buildings and sites by leasing through annual payments with an ultimate option to purchase [see CHG]; and, except as provided below, for other purposes necessary in the conduct of the public schools as determined by the board.

### **Exception**

Funds described above may not be used to initiate or maintain any action or proceeding against the state or an agency or officer of the state arising out of a decision, order, or determination that is final and unappealable under a provision of the Education Code, except that funds may be used for an action or proceeding that is specifically authorized by a provision of the Education Code or a rule adopted under the Education Code and that results in a final and unappealable decision, order, or determination. *Education Code 45.105(a)–(c), (c-1)*

### **Fiscal Year**

The fiscal year of a district begins on July 1 or September 1 of each year, as determined by the board. *Education Code 44.0011*

### **Budget Preparation**

On or before the date set by the State Board of Education (SBOE), a superintendent shall prepare, or cause to be prepared, a proposed budget covering all estimated revenue and proposed expenditures of a district for the following fiscal year. The budget must be prepared according to generally accepted accounting principles, rules adopted by the SBOE, and adopted policies of the board of trustees. *Education Code 44.002; 19 TAC 109.1(a), .41.5001*

### **Funds for Accelerated Instruction**

A district that is required to provide accelerated instruction under Education Code 29.081(b-1) [see EHBCA] shall separately budget sufficient funds, including funds under Education Code 48.104, for that purpose. *Education Code 29.081(b-2)*

### **Itemization of Certain Expenditures**

The proposed budget of a district must include, in a manner allowing for as clear a comparison as practicable between those expenditures in the proposed budget and actual expenditures for the same purpose in the preceding year, a line item indicating expenditures for:

1. Notices required by law to be published in a newspaper by the district or a representative of the district; and
2. Directly or indirectly influencing or attempting to influence the outcome of legislation or administrative action, as those terms are defined in Government Code 305.002.

*Local Gov't Code 140.0045*

## Public Meeting on Budget and Proposed Tax Rate

When the budget has been prepared, the board president shall call a board meeting for the purpose of adopting a budget for the succeeding fiscal year. Any taxpayer of a district may be present and participate in the meeting. *Education Code 44.004(a), (f) [See Policy CCG for provisions governing tax rate adoption.]*

The meeting must comply with the notice requirements of the Open Meetings Act. Gov't Code 551.041, .043 *[See Policy BE]*

### Published Notice

The board president shall provide for publication of notice of the budget and proposed tax rate meeting in accordance with Education Code 44.004. *[For specific requirements regarding the form, contents, and publication of the notice. [see Policy CCG(LEGAL).]*

### Publication of Proposed Budget Summary

Concurrently with the publication of notice of the budget under Education Code 44.004, a district shall post a summary of the proposed budget on the school district's internet website or, if the district has no internet website, in the district's central administrative office.

The budget summary must include a comparison to the previous year's actual spending and information relating to per student and aggregate spending on:

1. Instruction;
2. Instructional support;
3. Central administration;
4. District operations;
5. Debt service; and
6. Any other category designated by the commissioner.

*Education Code 44.0041*

## Budget Adoption

The board, at the meeting called for that purpose, shall adopt a budget to cover all expenditures for the succeeding fiscal year. The budget must be adopted before the adoption of the tax rate for the tax year in which the fiscal year covered by the budget begins. Education Code 44.004(f)–(g)

### Appendix for Tax Rate Calculation Forms

The board shall include as an appendix to the district's budget for a fiscal year the tax rate calculation forms used by the designated officer or employee of the district to calculate the no-new-revenue tax rate and the voter-approval tax rate of the district for the tax year in which the fiscal year begins. *Tax Code 26.04(e-5) [See Policy CCG]*

## Districts with July 1 Fiscal Year

A district with a fiscal year beginning July 1 may use the certified estimate of the taxable value of district property *[see CCG]* in preparing the required notice if the district does not receive the certified appraisal roll on or before June 7.

A district that uses a certified estimate may adopt a budget at the public meeting designated in the

published notice prepared using the estimate, but the district may not adopt a tax rate before the district receives the certified appraisal roll for the district. *Education Code 44.004(h)–(i)*

## Budget Adoption After Tax Rate Adoption

Notwithstanding Education Code 44.004(g), (h), and (i), above, a district may adopt a budget after the district adopts a tax rate for the tax year in which the fiscal year covered by the budget begins if the district elects to adopt a tax rate before receiving the certified appraisal roll for the district. If a district elects to adopt a tax rate before adopting a budget, the district must publish notice and hold a meeting for the purpose of discussing the proposed tax rate.

Following adoption of the tax rate [see CCG], the district must publish notice and hold another public meeting before the district may adopt a budget. The comptroller shall prescribe the language and format to be used in the notices. The district may use the certified estimate of taxable value in preparing a notice under this provision. *Education Code 44.004(j)*

## Publication of Adopted Budget

On final approval of the budget by the board, the district shall post on the district's internet website a copy of the budget adopted by the board. The district's website must prominently display the electronic link to the adopted budget. A district shall maintain the adopted budget on the district's website until the third anniversary of the date the budget was adopted. *Education Code 44.0051*

On or before a date set by the SBOE, the budget must be filed with the Texas Education Agency according to rules established by the SBOE. *Education Code 44.005*

## Internet Posting of Tax Rate and Budget Information

Each district shall maintain an internet website or have access to a generally accessible internet website that may be used for the purposes of these provisions. Each district shall post or cause to be posted on the internet website the following information in a format prescribed by the comptroller:

1. The name of each member of the board;
2. The mailing address, email address, and telephone number of the district;
3. The official contact information for each member of the board, if that information is different from the information described by item 2;
4. The district's budget for the preceding two years;
5. The district's proposed or adopted budget for the current year;
6. The change in the amount of the district's budget from the preceding year to the current year, by dollar amount and percentage;
7. The tax rate for maintenance and operations adopted by the district for the preceding two years;
8. The interest and sinking fund tax rate adopted by the district for the preceding two years;
9. The tax rate for maintenance and operations proposed by the district for the current year;
10. The interest and sinking fund tax rate proposed by the district for the current year; and
11. The most recent financial audit of the district.

*Tax Code 26.18*

## Effect of Adopted Budget and Amendment

Public funds of the district may not be spent in any manner other than as provided for in the budget adopted by the board, but the board may amend a budget or adopt a supplementary emergency budget to cover necessary unforeseen expenses. Any amendment or supplementary budget must be prepared and filed in accordance with SBOE rules. *Education Code 44.006*

## Spending Violation/Offense

A trustee who votes to approve any expenditure of school funds in violation of a provision of the Education Code, for a purpose for which those funds may not be spent, or in excess of the item or items appropriated in the adopted budget or a supplementary or amended budget commits an offense. *Education Code 44.052(c)*

## Certain Donations

A district may donate funds or other property or service to the adjutant general's department, the Texas National Guard, or the Texas State Guard. *Gov't Code 437.111(b), .252, .304(a)*

## Commitment of Current Revenue

A contract for the acquisition, including lease, of real or personal property is a commitment of a district's current revenue only, provided the contract contains either or both of the following provisions:

1. Retains to a board the continuing right to terminate the contract at the expiration of each budget period during the term of the contract.
2. Is conditioned on a best-efforts attempt by the board to obtain and appropriate funds for payment of the contract.

*Local Gov't Code 271.903*

## Prohibited Uses of Resources

### Improvements to Real Property

Except as provided below or by Education Code 45.109(a-1), (a-2), or (a-3) [see CX], the board may not enter into an agreement authorizing the use of school district employees, property, or resources for the provision of materials or labor for the design, construction, or renovation of improvements to real property not owned or leased by the district.

This provision does not prohibit the board from entering into an agreement for the design, construction, or renovation of improvements to real property not owned or leased by the district if the improvements benefit real property owned or leased by the district. Benefits to real property owned or leased by the district include the design, construction, or renovation of highways, roads, streets, sidewalks, crosswalks, utilities, and drainage improvements that serve or benefit the real property owned or leased by the district.

*Education Code 11.168*

### Hotels

The board may not impose taxes; issue bonds; use or authorize the use of district employees; use or authorize the use of district property, money, or other resources; or acquire property for the design,

construction, renovation, or operation of a hotel. The board may not enter into a lease, contract, or other agreement that obligates the board to engage in an activity prohibited by this provision or obligates the use of district employees or resources in a manner prohibited by this provision.

“Hotel” means a building in which members of the public obtain sleeping accommodations for consideration. The term includes a motel.

*Education Code 11.178*

## **Electioneering**

For restrictions on using district funds for electioneering, see Policy BBBD.

# **FINANCIAL STRUCTURE**

## **Summary of Significant Accounting Policies**

Frisco Independent School District (the District) is a public educational agency operating under the applicable laws and regulations of the State of Texas. It is governed by a seven-member Board of Trustees (the Board) elected by registered voters of the District. The District prepares its basic financial statements in conformity with accounting principles generally accepted in the United States of America promulgated by the Governmental Accounting Standards Board (GASB), and it complies with the requirements of the appropriate version of the Texas Education Agency’s Financial Accountability System Resource Guide (the Resource Guide) and the requirements of contracts and grants of agencies from which it receives funds.

## **Reporting Entity**

The Board is elected by the public and has the authority to make decisions, appoint administrators and managers, and significantly influence operations. It also has the primary accountability for fiscal matters. Therefore, the District is a financial reporting entity as defined by GASB in its Statement No. 14, “The Financial Reporting Entity,” as amended by Statements No. 39, “Determining Whether Certain Organizations are Component Units,” and No. 61, “The Financial Reporting Entity: Omnibus – an Amendment of GASB Statements No. 14 and No. 34.” There are no component units within the reporting entity.

## **Basis of Accounting**

The District uses a modified accrual basis of accounting. Revenues are recognized in the accounting period in which they become both measurable and available, and expenditures are recorded when a liability is incurred, if measurable, except for outstanding principal and interest on long-term debt, which is recognized when due.

Revenues are considered available when they are collectible within the current period or soon enough

thereafter to pay liabilities of the current period. The District considers all revenues available if they are both measurable and collectible within 60 days of year-end.

Grant funds are considered earned to the extent expenditures are made under the provisions of the grant. When grant funds are received before they are earned, they are recorded as unearned revenue until earnings criteria are met.

## Funds

The District budgets for and reports its financial activities using fund accounting. The District’s activities are organized into funds. The operations of each fund are accounted for within a separate set of self-balancing accounts to reflect the results of their activities. Fund accounting segregates funds by their intended purposes to assist management in demonstrating compliance with financial-related legal and contractual provisions.

**Governmental Funds** are those through which most governmental functions of the District are financed. The acquisition, use, and balances of the District’s expendable financial resources and the related liabilities are accounted for through the governmental funds. The following are the District’s major governmental funds:

- The **General Fund** is the general operating fund of the District and accounts for all revenues and expenditures of the District not encompassed within other funds. All general tax revenues and other receipts that are not allocated by law or contractual agreement to some other fund are accounted for in this fund. General operating expenses that are not paid through other funds are paid from the General Fund.
- The **Debt Service Fund** is used to account for the accumulation of resources for, and the retirement of, long-term debt principal, interest, and related costs.
- The **Capital Projects Fund** is used to account for financial resources to be used for the acquisition, renovation, or construction of capital projects.

The School Board adopts an annual budget for the General Fund and Debt Service Funds. FISD uses project budgeting in the Capital Projects Fund. Due to the nature and timing of large capital projects, those budgets may not align with our fiscal year.

Non-major Governmental Funds are **Special Revenue Funds** used to account for resources that are legally restricted or locally committed to expenditures for specified purposes. Most Federal and some State financial assistance is accounted for in special revenue funds.

- The **Child Nutrition Fund** is used to account for school lunch and breakfast programs using federal reimbursement revenues from the US Department of Agriculture, as passed through the State of Texas, for the purpose of charging for and providing meals to students. The Child Nutrition Fund is the only special revenue fund for which the School Board adopts an annual budget.
- Budgets for other special revenue funds are developed as funds are awarded. These budgets are administered on a project or grant basis, which may not align with our fiscal year.

## Encumbrance Accounting

Under encumbrance accounting, purchase orders, contracts, and other commitments for the expenditure of funds are recorded in the accounting system to assign the portion of the applicable appropriation. Encumbrances are not liabilities and are therefore not recorded as expenditures until receipt of the goods or services. For budgetary purposes, appropriations lapse at fiscal year-end, and outstanding encumbrances at year-end are re-appropriated in the next fiscal year. A portion of fund balance is committed at the end of the year for outstanding encumbrances at year-end.

## Account Code Structure

Section 44.007 of the Texas Education Code requires that a standard school district fiscal accounting system be adopted by each school district. The accounting system must conform to generally accepted accounting principles (GAAP) and must meet at least the minimum requirements prescribed by the Commissioner of Education, subject to review and comment by the state auditor. A major purpose of the accounting code structure is to establish the standard school district fiscal accounting system required by law. Although certain elements of the account code may be used at local option, the sequence of the codes within the structure, and the funds and chart of accounts, are to be uniformly used by all districts.

## Account Code Composition

- **Fund Code** – A required three-digit code used for all financial transactions to identify the fund group and specific fund. The first digit identifies the fund group, and the second and third digits identify the fund.
- **Fiscal Year Code** - A required single-digit code that identifies the fiscal year of a transaction or the beginning fiscal year of a grant project. The code for a particular fiscal year is the last digit of that fiscal year. For example, “6” is the fiscal year code for a fiscal year that begins in 2025 and ends in 2026.
- **Function Code** – A required two-digit code used for a cost to identify the purpose of the transaction. The first digit identifies the major class of functions, and the second digit identifies the specific function within the class.
- **Organization Code** – A required three-digit code that identifies the organization, such as a high school, middle school, elementary school, or superintendent’s office, etc. An organization code does not necessarily correspond with a physical location. The activity, not the location, defines the organization.
- **Object Code** – A required four-digit code that identifies the purpose of an account, a transaction,

or a source. The first of the four digits identifies the type of account or transaction, the second digit identifies the highest level of classification, and the third and fourth digits provide further subclassifications.

- Sub-object Code – An optional code used to further define the object code. Frisco ISD uses the sub-object code to help identify the subject, grade level, or department associated with the object.
- Program Intent Code – A two-digit code used to designate the intent of a program provided to students. Program intent codes account for the cost of instruction and other services that are directed toward a particular need of a specific set of students. The intent (the need of student group toward which the instructional or other service is directed) determines the program intent code (PIC), not the demographic makeup of the students served.

## Classification of Revenues and Expenditures

Section 44.007 of the Texas Education Code requires all Texas school districts to use a standard fiscal accounting system. The accounting system must conform to generally accepted accounting principles and meet the minimum requirements prescribed by the Commissioner of Education. The purpose of the account code structure is to provide consistency in the way school districts budget, record, and report financial activity.

Frisco ISD uses the account code structure prescribed by the Texas Education Agency to classify each transaction by fund, function, object, organization, fiscal year, and program intent. This structure allows the District to identify both the source of funds and the purpose of each expenditure.

### Function Codes

Function codes identify the purpose of an expenditure. The first digit identifies the broad category of service, and the second digit identifies the specific function within that category. The School Board adopts the General Fund, Debt Service Fund, and Child Nutrition Fund budgets at the function level, which is the District’s legal level of budgetary control.

| FUNCTION                                           | DESCRIPTION                                                                                                                                                                                                                               |
|----------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 11 - Instruction                                   | Includes activities that deal directly with the interaction between teachers and students. This includes classroom instruction, instructional materials, classroom technology, and other costs directly related to teaching and learning. |
| 12 - Instructional Resources and Media Services    | Includes expenditures for resources and services that support instruction, such as library and media services.                                                                                                                            |
| 13 - Curriculum and Staff Development              | Includes expenditures related to curriculum development, instructional improvement, and professional learning for instructional staff.                                                                                                    |
| 21 - Instructional Leadership                      | Includes districtwide activities used to manage, direct, supervise, and provide leadership for staff who provide instructional services. This function includes instructional supervisors but does not include campus principals.         |
| 23 - School Leadership                             | Includes expenditures used to direct and manage a campus. This includes principals, assistant principals, and campus administrative and clerical staff.                                                                                   |
| 31 - Guidance, Counseling, and Evaluation Services | Includes expenditures used for assessing and testing students, counseling students regarding educational and career opportunities, and helping students establish academic, personal, and postsecondary goals.                            |

| <b>FUNCTION</b>                                                  | <b>DESCRIPTION</b>                                                                                                                                                                                                                                                         |
|------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 32 - Social Work Services                                        | Includes expenditures for services such as identifying student social needs, casework services, interpreting student needs, and supporting students and families in addressing barriers to school success.                                                                 |
| 33 - Health Services                                             | Includes expenditures for physical health services provided to students, such as nursing, medical, dental, and related health services.                                                                                                                                    |
| 34 - Student Transportation                                      | Includes the cost of transporting students to and from school. This function includes transportation supervisors, bus drivers, and related transportation costs, but does not include field trips or student organization trips.                                           |
| 35 - Food Service                                                | Includes expenditures for the operation of the District's food service program, including food, labor, supplies, and other costs necessary to prepare, transport, and serve meals to students and staff.                                                                   |
| 36 - Cocurricular/Extracurricular Activities                     | Includes expenditures for school-sponsored activities outside of the regular instructional program. This includes athletics, fine arts competitions, academic competitions, and other student activities that may occur before or after the school day.                    |
| 41 - General Administration                                      | Includes expenditures for managing or governing the District as a whole. This includes the School Board, Superintendent's Office, legal services, financial services, human resources, and other districtwide administrative functions.                                    |
| 51 - General Maintenance and Operations                          | Includes expenditures used to keep facilities and grounds clean, safe, comfortable, and in effective working condition. This includes custodial services, maintenance, utilities, facility insurance, grounds, warehousing, and related operations.                        |
| 52 - Security and Monitoring Services                            | Includes expenditures used to keep students, staff, campuses, and District facilities safe and secure, including safety monitoring, security systems, and related services.                                                                                                |
| 53 - Data Processing Services                                    | Includes expenditures for data processing and technology services, whether provided in-house or through contracted services. Costs associated with networks, servers, enterprise systems, and technology infrastructure that support multiple functions are recorded here. |
| 61 - Community Services                                          | Includes activities designed to provide a service or benefit to the community as a whole or to a portion of the community.                                                                                                                                                 |
| 71 - Debt Service                                                | Includes expenditures for principal, interest, and related fees on the District's outstanding debt.                                                                                                                                                                        |
| 81 - Facilities Acquisition and Construction                     | Includes expenditures for acquiring, equipping, constructing, or making additions to real property and sites. This function is generally used in capital projects funds.                                                                                                   |
| 91 - Contracted Services Between Public Schools                  | Includes payments to other public school districts or shared service arrangements for services provided to Frisco ISD.                                                                                                                                                     |
| 95 - Payments to Juvenile Justice Alternative Education Programs | Includes payments to governmental entities for students placed in discretionary or mandatory Juvenile Justice Alternative Education Program settings under Chapter 37 of the Texas Education Code.                                                                         |
| 97 - Tax Increment Fund                                          | Includes payments related to the District's obligations within a tax increment reinvestment zone.                                                                                                                                                                          |
| 99 - Other Intergovernmental Charges                             | Includes other payments to governmental entities that are not classified elsewhere, such as appraisal district fees.                                                                                                                                                       |

Object Codes

Object codes identify the nature of the expenditure, or what is being purchased. While function codes explain the purpose of the spending, object codes explain the type of cost. Frisco ISD presents expenditure budgets by major object code to give readers a clearer understanding of how funds are used.

| OBJECT                                    | DESCRIPTION                                                                                                                                                                                                                                                                         |
|-------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 61 - Payroll Costs                        | Includes salaries, wages, stipends, substitute pay, and employee benefit costs. This is the District’s largest expenditure category because public education is a service-oriented operation delivered primarily through teachers, campus staff, support staff, and administrators. |
| 62 - Professional and Contracted Services | Includes services provided to the District by firms, individuals, and other organizations. Examples may include professional services, contracted instructional services, maintenance contracts, utilities, legal services, audit services, and other service contracts.            |
| 63 - Supplies and Materials               | Includes supplies and materials used in District operations, such as instructional supplies, office supplies, food, fuel, custodial supplies, maintenance materials, and other consumable items.                                                                                    |
| 64 - Other Operating Costs                | Includes operating expenditures that are not classified as payroll, contracted services, supplies and materials, debt service, or capital outlay. Examples may include travel, insurance, dues, fees, election costs, and other miscellaneous operating costs.                      |
| 65 - Debt Service                         | Includes principal, interest, and related fees on debt obligations. Debt service object codes are generally used with Function 71 - Debt Service.                                                                                                                                   |
| 66 - Capital Outlay                       | Includes expenditures for capital assets, such as equipment, vehicles, technology, furniture, and other items that meet the District’s capitalization requirements.                                                                                                                 |

BUDGET  
ADMINISTRATION AND  
CONTROL

Frisco ISD utilizes a priorities-based budgeting (“PBB”) approach to guide spending and ensure a balanced and sustainable budget. The PBB model was adopted by Frisco ISD with the goals of identifying individual and programmatic priorities that align with overall District priorities, analyzing the costs of those priorities, and identifying savings opportunities by reducing or eliminating spending in areas that are either less aligned or no longer efficient.

The budgeting process provides critical information for both planning and evaluating annual spending requirements. Budgeting translates educational goals and programs into a financial resource plan. It also provides a layer of internal controls for the district’s day-to-day operations by limiting spending to a prescribed threshold.

Campus principals and departmental budget owners (generally Directors and above) are responsible

for their organization's piece of the overall District budget. Those budget owners are tasked with ensuring resources are aligned to their specific organizational needs and allocated in the way they are expected to be spent.

## Campus Budgets

Campuses receive budgetary resource allocations each spring for the upcoming fiscal year based on a weighted per-pupil allotment. Each campus receives a discretionary budget based on total campus enrollment, and additional allotments are provided for students served by special education, dyslexia, bilingual/ESL, compensatory education, gifted and talented, and career and technology education programs. Special program allotments must be budgeted for and spent on students served by each program, while discretionary allotments may be allocated campus-wide at the campus principal's discretion.

The Finance Department calculates these appropriations each January using the greater of current enrollment or projected enrollment at the next enrollment snapshot date, which occurs in October. Each November, after the enrollment snapshot, the Finance Department reconciles enrollment for each campus with the student counts used for appropriations and provides additional funds to campuses with greater-than-projected growth.

In addition to the per-pupil allotment, central departments allocate money for each campus to pay for fine arts and athletics programs, physical education, and library books.

Campuses, like departments, use the PBB methodology to allocate their annual appropriations. However, since campus appropriations change annually based on student counts, campus principals are not asked to return appropriations to help fund other priorities.

## Department Budgets

Central departments use a modified zero-based budget process in which each departmental budget owner prepares a proposed budget for review and approval by the Instructional Support Team (IST).

Each budget owner begins by identifying and prioritizing their spending needs for the upcoming year and developing a preliminary budget proposal. They then review their department's historical budgets and spending to (1) ensure they did not miss anything in their preliminary proposal and (2) to use the PBB methodology to identify opportunities for more efficient spending.

As part of the PBB process, budget owners are tasked with budgeting at or below historical spending. If their preliminary budget exceeds historical spending, the Instructional Support Team member over that department must review and approve their budget proposal before it is submitted to the Finance Department. The Finance Department then accumulates all proposed departmental budgets, and the Instructional Support Team finalizes budget allocations based on available funding. The Finance Department supports budget owners in reducing their proposed budgets if needed, based on final allocations.

## Human Resources

Personnel units are allocated to each campus annually by the Human Resources Department based on projected student enrollment for the upcoming school year. Human Resources ensures compliance with state-mandated student-teacher ratios as well as district-wide target class sizes.

Requests for new departmental personnel units may be submitted to the Instructional Support Team for review based on individual organizational needs.

More information about the allocation of personnel resources can be found in the Informational Section on page 108.

## **Budget Roles & Responsibilities**

### **Board of Trustees**

- Sets the overall District vision and goals for the budget and strategic plans
- Reviews and provides feedback on recommendations from the Instructional Support Team
- Approves the annual budget and compensation plan

### **Superintendent & Instructional Support Team**

- Review recommendations from budget owners to ensure program spending is aligned with the District's priorities
- Seek and analyze feedback from stakeholders as necessary
- Make recommendations to the Board of Trustees

### **District Budget Owners**

- Conduct analysis/research of resources needed for various programs and identify cost savings opportunities
- Make recommendations/requests to the Instructional Support Team
- Oversee and monitor budget and spending

### **Finance Department**

- Determines available funding
- Compiles proposed budget for School Board based on IST recommendations

## **Budget Transfers and Adjustments**

Throughout the year, budget owners may transfer appropriations within their campus or department budgets as needed. Transfers within the same function code require approval of the Director of Finance. Transfers between function codes require the approval of the Board of Trustees.

Amendments to increase the overall budget can be requested by a budget owner to the Finance Department. The Chief Financial Officer reviews each amendment request and, if approved, will make a recommendation to the Board of Trustees to increase the budget. All budget amendments must be approved by the Board.

## Expenditures

Each budget owner can approve expenditures for the funds within their budget. Once approved by the budget owner, all purchases of goods or services are reviewed and approved by the Finance Department for proper coding and by the Purchasing Department for proper purchasing authority. Certain purchases may require additional approval based on dollar value:

- Individual purchases valued over \$50,000 require the approval of the Executive Director of Business Services.
- Contracts for services valued over \$100,000 must be approved by the Board of Trustees.
- Individual purchases valued over \$100,000 using a district purchase order may be approved by the Deputy Superintendent of Business & Operations, but must be reported to the Board on a monthly basis.

## Purchasing

All District funds are required to comply with State and Federal Purchasing Laws and with Frisco policies and procedures regarding the use of the approved Vendor List. Budget owners are responsible for ensuring the appropriateness of each expenditure to meet the needs of their individual organization, while the District's Purchasing Department is responsible for ensuring that all policies and regulations related to the purchase of goods and services are followed.

Frisco ISD uses requisitions and purchase orders to ensure all purchases meet the District's needs, budget, and compliance requirements. A purchase requisition notifies the Purchasing Department that goods or services have been requested through the financial management system. When a requisition has been reviewed and approved by the Finance and Purchasing Departments, a purchase order is created and sent to the vendor for fulfillment.

After the goods or services are physically received, the recipient acknowledges receipt in the financial management system. The Accounts Payable Department receives invoices and matches them to the receiving report and the authorized purchase order before payment. Once the invoice is matched to a purchase order and a receipt, funds are distributed to the vendor, and the encumbrance is liquidated from the system.

## Reporting

The District submits its annual budget, student attendance information, and its end-of-year financial status through a Public Education Information Management System (PEIMS) controlled by the Texas Education Agency (TEA). The PEIMS system provides TEA and districts across the state with a wealth of demographic, attendance, and financial information. The District is also required to submit its audited Annual Comprehensive Financial Report (ACFR) to the TEA after the close of the fiscal year. TEA establishes all transmission and reporting dates for these required reports.

In addition to required reports, the District's Finance staff provides a quarterly budget report to the Board as an informational item. The report is prepared in an infographic format and summarizes revenues and expenditures on a year-to-date basis. All quarterly reports are published on the District's Financial Transparency website.

# FINANCIAL SECTION

# SUMMARY OF ALL FUNDS

The following schedules provide a consolidated view of Frisco ISD's adopted budgets and multi-year financial outlook for all budgeted funds – the General Fund, Debt Service Fund, and Child Nutrition Fund. These tables are intended to give readers a districtwide financial summary before reviewing the individual fund sections that follow.

The all-funds schedules include the adopted budget by function and object, five years of budget and actual expenditure data by function, and the District's multi-year financial plan. Additional detail regarding revenue assumptions, expenditure drivers, fund balance changes, and significant budget trends is provided in the General Fund, Debt Service Fund, and Child Nutrition Fund sections.

# GENERAL FUND

The General Fund is the District's main operating fund, which pays for the daily operations of schools and central offices. Expenditures paid from this fund include salaries and benefits, classroom supplies and equipment, co-curricular and extracurricular activities, educational technology and related support, utilities, routine maintenance of buildings, and transportation costs.

## Revenue

General Fund revenue is delineated between revenue available for appropriation and "flow-thru" revenue. Flow-thru revenue is money collected in the General Fund that is expended in its entirety for a specified purpose that is either contractually agreed upon or required by state law.

Formula revenue, net of recapture, represents a series of weighted allotments made up of both local property tax revenue and state aid. The decrease in formula revenue from the FY 26 adopted budget represents an expected enrollment decline of over 900 students.

Revenue generation outside the state's funding formula was a significant focus of this year's budget process. The budget for other local revenue was increased for:

- Increased fees for renting FISD facilities. The District will implement a \$ 25-per-hour increase in rental rates for turf and gyms in the 2026-27 school year. We also plan to increase gym rental rates by another \$25 per hour in both the 2027-28 and 2028-29 school years, for a three-year increase of \$75 per hour.
- Expanded participation in FISD's tuition-based pre-K program. The District opened tuition-based pre-K to students both in-district and out-of-district who do not meet the eligibility requirements for state-funded pre-K. FISD expects an additional 600 pre-K students in the 2026-27 school year based on preliminary enrollment data.
- Implementation of fare-based busing. Beginning in 2026-27, families who do not qualify for a district bus to and from school can pay \$70-\$90 per month, depending on the number of students in their household, to ride the bus. Discounts will be offered for students on free/reduced lunch, and the District will only sell open seats on preexisting bus routes.
- Addition of student Chromebook fees. Beginning in 2026-27, students will pay a \$20 annual fee that functions like Chromebook insurance. The fee will cover the cost of the first repair should accidental damage occur. If the fee is not paid, the student must pay the full cost of the device's repair or replacement. A discounted fee will be offered for students on free/reduced lunch.

The federal revenue budget was reduced to reflect a continued decline in reimbursements from the Medicaid and School Health and Related Services programs.

Flow-Thru Revenue

Flow-thru revenue is money collected by Frisco ISD that is passed directly to another entity and is therefore not available to appropriate for District operations.

- TIRZ Revenue is property tax revenue received from Frisco’s Tax Increment Reinvestment Zone #1, which consists of commercial and multi-family properties around Stonebriar Mall and properties related to joint ventures throughout Frisco. Frisco ISD collects property taxes in this zone at our current tax rate, and the state provides a supplement to offset property tax compression dating back to 2006. One hundred percent of TIRZ revenue, including the state supplement, is passed on to the City of Frisco, which manages the TIRZ fund. A portion of that revenue is then returned to Frisco ISD annually to construct, equip, or maintain school buildings.
- TRS on-behalf revenue is money paid toward employee retirement by the state on behalf of the District.
- Recaptured tax revenue is local tax revenue collected in excess of the District’s entitlement calculated by the public education funding formula. All excess tax revenue must be paid to the state for disbursement to other public education systems and charter schools throughout the state.

Baseline Budget

The baseline budget serves as a starting point for the new budget year. We begin with the prior year’s adopted budget, less any flow-thru items, plus any Board-approved amendments that occurred during the year and that are expected to regularly recur in the future.

|                                 |              |
|---------------------------------|--------------|
| 2025-26 Adopted Budget          | 762,677,660  |
| Less 2025-26 Flow-Thru Budget   | (96,955,900) |
| Plus Board-Approved Amendments: |              |
| School Marshals                 | 1,455,400    |
| Communications/Advertising      | 350,000      |
| 2025-26 Baseline Budget         | 667,527,160  |

Budget Changes

FISD uses a priorities-based budgeting process to try to absorb inflationary cost increases without impacting the bottom line. Budgets and expenditures are evaluated regularly to identify opportunities to reprioritize spending.

## Cost Savings

To balance the budget deficit for 2026-27, FISD found cost savings by scrutinizing open positions, standardizing class loads, reducing teaching positions for declining enrollment, and reducing or eliminating programming in a way that had the least impact on student learning.

We found most of our cost savings by eliminating the budget for vacant positions. By budgeting at less than fully staffed, we were able to reduce the budget by \$10 million with the expectation that the budget will more accurately reflect actual payroll expenditures during the year.

Similarly, department budgets were reduced by \$3.6 million to align with actual spending over the past 3 years.

## Compensation

Aligning the budget with historical spending freed up \$11.2 million for new compensation, which was used to:

- Raise starting teacher pay from \$62,000 to \$64,000
- Provide all staff with a 2% increase in their base wages
- Increase hourly wages for Special Education paraprofessionals in addition to the 2% raise, and
- Increase stipends for Special Education teachers

### Cost Savings - Positions

|                                                                      |                  |
|----------------------------------------------------------------------|------------------|
| Reduce elementary teaching positions for enrollment decline          | 5,686,300        |
| Reduce secondary teaching positions for master schedule efficiencies | 4,173,100        |
| Restructure middle school instructional coaching program             | 1,429,400        |
| Retire Staley Middle School                                          | 2,232,700        |
| Remove vacant positions from budget and adjust for attrition         | 9,987,200        |
|                                                                      | <hr/> 23,508,700 |

### Other Cost Savings

| Total Operating Revenue, less recapture per WADA <sup>2</sup> | \$7,091.97         | \$7,188.99          | \$7,692.37         |
| Total Operating Expenditures per WADA <sup>2</sup>            | \$8,129.49         | \$8,615.54          | \$8,791.00         |

<sup>1</sup> Expenditures for 2025-26 are forecasted based on historical spending. Baseline expenditures for 2026-27 are equal to the 2025-26 original adopted budget, less flow-thru expenditures and one-time costs, plus any amendments that occurred throughout the year that are expected to recur and have been approved by the Board as of the date of this report. Baseline expenditures for 2027-28 and beyond equal the previous year's total forecasted expenditures, less any planned one-time costs.

The notes to the multi-year financial plan on the following page are an integral part of this document.

| 2025-26            | 2026-27             | 2027-28             | 2028-29             | 2029-30             |

## Notes to the multi-year financial plan

1. This multi-year forecast is for planning purposes only. Given the unpredictability of the biennial state legislature and other economic indicators, forecasts are subject to change frequently. The 3 forecasted years in this model represent a realistic yet conservative prediction of financial outcomes based on current law funding formulas.
2. FISD's third-party demographers at PASA have prepared demographic projections that indicate a modest decline in overall enrollment over the next 5 years. This plan uses PASA's "moderate" enrollment change scenario. As enrollment declines, operating costs must also be reduced to maintain a balanced budget.
3. This financial plan does not include pay raises for staff beyond the 2026-27 school year. Any future compensation increases will need to be evaluated against available funds on an annual basis.
4. The Board of Trustees strives to maintain an unassigned fund balance of 25% of next year's expenditures to cover cash flow deficits during the first quarter of the District's fiscal year. Fund balance may be used as a tool to maintain stability for a short period of time. However, any significant decrease in unassigned fund balance with no plan for restoration could result in the need for short-term borrowing.
5. Revenue forecasts assume modest property value growth at 1% annually. House Bill 3, passed by the 86th Texas Legislature in May 2019, eliminated the effect of "property value lag" in the State's school funding formula. However, because current and future budgets will be adopted based on estimated property values, adequate reserves must be maintained to accommodate any required settle-up with the State when values are finally certified.

## Fund Balance

Fund balance is a measure of the District's financial position at a given point in time (usually June 30). Fund balance is not a savings account. The purpose of fund balance is to facilitate cash flow (more like a checking account). It is used to pay bills when the District isn't bringing in revenue. The school year starts in August, but we receive most of our revenue between December and February when property taxes are collected. Therefore, it's important that the District maintains a healthy enough fund balance to keep up with regular operating expenditures during the first half of the school year.

The District often sets aside portions of fund balance for specific purposes, including predetermined future expenditures, contingencies for unforeseen circumstances, and employee retention incentives. The portion of fund balance available for a "rainy day," or the portion that can be considered a savings account, is the amount of unassigned fund balance remaining after we meet all our other needs. Frisco ISD has about \$50 million in "rainy day" fund balance available to help balance a deficit budget. Just like a savings account, fund balance can only be spent once, and then it's gone. It's merely a tool that allows us to balance the budget for a short period while identifying a more sustainable solution.

| FUND BALANCE                    | 2022-23     | 2023-24     | 2024-25     | 2025-26<br>PROJECTED ACTUAL | 2026-27<br>FORECASTED |

## Campus Budgets

Campus appropriations are based on a weighted per-pupil allotment. In addition to the per-pupil allotment, central departments allocate funds to each campus for fine arts and athletics programs, physical education, and library books.

| ALLOTMENT                                              | ELEMENTARY<br>SCHOOLS | INTERMEDIATE<br>& MIDDLE<br>SCHOOLS | HIGH<br>SCHOOLS |

## Central Department Budgets

### Board/Superintendent

The Board of Trustees and Superintendent provide governance and executive leadership for Frisco ISD. The Board serves as the District's policy-making body, sets direction for the school district and works with the Superintendent and staff to support the education and well-being of students.

## Athletics

The Athletics Department supports student participation in competitive athletic programs that build character, leadership, and school pride. The department oversees athletic programming, schedules, facilities coordination, and student-athlete experiences across Frisco ISD middle and high schools.

### 2026-27 Department Goal

Athletics will implement a districtwide Character & Leadership Success Profile and aligned student-athlete reflection process to ensure all student-athletes experience consistent leadership development, character education, and future-ready skill development regardless of campus or sport.

District Goal Alignment: Goal 2: Future-Ready Learning & Postsecondary Readiness

Measures of success:

- Student-athlete leadership/character survey results
- Consistency of implementation across programs
- Increased student reflection participation
- Reduced discipline/eligibility concerns
- Coach participation in leadership training

## Business Services

Business Services supports the District's financial operations and stewardship of public funds. The department includes key functions such as finance and budget, accounting, procurement, payroll, grants and compliance, and risk management.

### 2026-27 Department Goal

Business Services will improve campus understanding, planning, and compliance with district financial and operational procedures by implementing proactive training, communication, and support structures for campus administrators and secretaries, resulting in increased stakeholder understanding of operational expectations, reduced preventable compliance issues, and improved campus planning efficiency.

District Goal Alignment: Goal 3: Organizational Effectiveness & Staff Retention

Measures of success:

- Reduction in repeat campus finance/compliance errors
- Participation rates for campus training
- Campus administrator/secretary satisfaction survey results
- Reduced corrective action requests or sustain zero audit findings
- Increased proactive planning submissions/on-time processes

## Communications & Community Relations

The Communications Department manages districtwide communication practices and channels to keep families, staff, students, and the community informed. The department supports news, media relations, crisis communication, web services, social media, and other tools that help Frisco ISD share timely and accurate information.

Community Relations supports engagement between Frisco ISD, families, businesses, and community partners. The department helps connect stakeholders to opportunities for involvement, partnership, sponsorship and support of District schools and students.

### 2026-27 Department Goals

Communications will strengthen two-way communication and stakeholder trust by implementing improved feedback and communication practices that increase stakeholder responsiveness, improve clarity and empathy in district messaging, and expand opportunities for parent and staff engagement.

District Goal Alignment:

- Goal 2: Future-Ready Learning & Postsecondary Readiness
- Goal 3: Organizational Effectiveness & Staff Retention

Measures of success:

- Increased engagement across communication platforms.
- Increased stakeholder participation in feedback opportunities
- Increased two-way communication between parents and staff
- Annual survey communication feedback data

Community Relations will increase external partnership and sponsorship opportunities by developing and implementing a district advertising and partnership framework designed to expand sustainable revenue opportunities and strengthen community engagement.

District Goal Alignment: Goal 2: Future-Ready Learning & Postsecondary Readiness

Measures of success:

- Sponsorship/partnership revenue growth
- Number of active business/community partnerships

Community Relations will improve volunteer management systems by evaluating and implementing enhancements to volunteer onboarding, tracking, communication, and campus visibility processes, resulting in improved volunteer participation, accountability, and campus coordination.

Measures of success:

- Volunteer participation and retention rates
- Campus satisfaction with volunteer coordination systems
- Increased student participation in partnership-supported experiences
- Number of schools actively using the platform daily

## Fine Arts

The Fine Arts Department supports student learning and participation in visual and performing arts programs across the District. Fine arts programming is designed to foster creativity, belonging, growth, joy, community, and excellence while providing students equitable access to arts education.

### 2026-27 Department Goal

Fine Arts will stabilize participation and program balance in band, choir, dance, and orchestra through targeted campus support, recruitment, and retention strategies designed to improve student participation and ensure high-quality program experiences.

District Goal Alignment: Goal 2: Future-Ready Learning & Postsecondary Readiness

Measures of success:

- Increased program participation and retention
- Improved elective access/scheduling flexibility
- Student participation across multiple programs
- Program continuation rates by campus

Government Affairs

Government Affairs monitors legislative and policy issues that may impact Frisco ISD and public education. The department supports legislative priorities, tracks education-related bills and serves as a resource for elected officials and stakeholders on issues affecting the District.

2026-27 Department Goal

Government Affairs will develop and deploy a Pre-Session Advocacy Impact Framework that translates district operational and instructional challenges into 3–5 high-priority legislative briefs and advocacy tools designed to improve stakeholder understanding, support district legislative priorities, and protect instructional time and organizational capacity.

District Goal Alignment: Goal 3: Organizational Effectiveness & Staff Retention

Measures of success:

- Completion of legislative briefing framework
- Trustee engagement participation
- Number of legislative communication tools developed
- Stakeholder awareness of district legislative priorities
- Evidence of advocacy alignment with district priorities

Human Resources

Human Resources supports the District’s work to recruit, hire, develop and retain employees. The department oversees employee services including staffing, onboarding, engagement, benefits, leave, accommodations, compensation, substitutes, background checks, and personnel-related compliance.

2026-27 Department Goal

Human Resources will improve employee understanding and perception of district compensation and benefits by implementing a strategic employee value communication plan that increases staff awareness of total compensation, available supports, and district investment in employees.

District Goal Alignment: Goal 3: Organizational Effectiveness & Staff Retention

Measures of success:

- Improved employee perception of compensation/benefits understanding
- Increased recruitment competitiveness metrics
- Staff retention improvements

## Leadership

The Leadership Department provides direct support and supervision for campus administrators. The department works with principals and campus leadership teams to promote strong school leadership, consistent implementation of District priorities, and effective support for students, staff, and families.

### 2026-27 Department Goal

Leadership Services will strengthen principal instructional leadership capacity and districtwide implementation consistency by providing aligned leadership development, instructional support systems, and campus monitoring processes focused on improving the quality and consistency of student learning experiences across campuses.

District Goal Alignment:

- Goal 1: Instructional & Grading Consistency
- Goal 2: Future-Ready Learning & Postsecondary Readiness
- Goal 3: Organizational Effectiveness & Staff Retention

Measures of success:

- Improved student outcomes socially, emotionally, and academically
- Improved performance on TPESS domains

Legal Affairs

Legal Affairs supports the District in meeting legal and regulatory responsibilities. This includes advising on legal matters, supporting compliance with applicable laws and policies, and coordinating processes such as public information requests, legal notices, and other required procedures.

2026-27 Department Goals

The Legal Department will redesign formal complaint resolution processes to increase early conflict resolution, improve campus-level problem solving, and strengthen stakeholder trust while reducing unnecessary escalation and administrative burden.

District Goal Alignment: Goal 3: Organizational Effectiveness & Staff Retention

Measures of success:

- Reduced formal complaint escalation rates
- Improved resolution timelines
- Increased early conflict resolution rates
- Improved stakeholder confidence in complaint processes

The Legal Department will implement a unified legal intake and tracking system for Public Information Act requests, subpoenas, student records, and custody documents to improve consistency, visibility, efficiency, and legal response coordination across the district.

District Goal Alignment: Goal 3: Organizational Effectiveness & Staff Retention

Measure of success: Reduced administrative burden related to legal processes

## Operations

Operations provides leadership for the essential services and systems that support safe, functional, and effective learning environments. Areas of responsibility include transportation, construction services, maintenance, custodial services, child nutrition, security, emergency management, health services, environmental health and safety, facility rentals, bond planning, and related operational functions.

## 2026-27 Department Goals

Operations will reduce entry-level vacancies by implementing a culture-first employee support model that strengthens campus integration, improves employee onboarding and belonging, and increases retention of operational staff.

District Goal Alignment: Goal 3: Organizational Effectiveness & Staff Retention

Measures of success:

- Reduced operational vacancy rates
- Improved retention of entry-level staff
- Increased employee belonging/support survey data

Frisco ISD will improve emergency coordination and operational readiness by implementing standardized districtwide utilization of the In Case of Crisis (ICoC) emergency communication platform during drills and emergency events.

District Goal Alignment: Goal 3: Organizational Effectiveness & Staff Retention

Measures of success:

- Increased ICoC utilization consistency
- Improved emergency drill/response effectiveness indicators

## Specialized Learning Services

Specialized Learning Services supports students who need individualized services and accommodations to access learning. The department oversees special education, dyslexia services, Section 504, early childhood special education, evaluation and compliance, related services, centralized classes, transition services, and family support.

### 2026-27 Department Goal

Specialized Learning Services will establish and implement a unified district standard of practice for Special Education, 504, and Pre-K services that improves consistency, service quality, and stakeholder understanding for improved student outcomes.

District Goal Alignment:

- Goal 1: Instructional & Grading Consistency
- Goal 2: Future-Ready Learning & Postsecondary Readiness
- Goal 3: Organizational Effectiveness & Staff Retention

Measures of success:

- Role Clarity and Accountability
- IEP Quality and Compliance
- Program Clarity and Training

## Student Services

Student Services supports programs, resources, and systems that help students feel safe, connected, and ready to learn. The department provides support in areas such as school counseling, academic advisement, college and career readiness, attendance and truancy, student behavior, school climate, crisis response, whole child development, the Student Opportunity Center, and other services that promote student well-being, belonging, and success.

### 2026-27 Department Goals

Student Services will strengthen campus capacity to implement proactive, data-driven behavior support systems through a coaching and demonstration-based support model, providing differentiated support aligned to campus need and improving intervention effectiveness for students with behavioral needs.

District Goal Alignment: Goal 3: Organizational Effectiveness & Staff Retention

Measures of success:

- Reduced repeat behavior incidents campuswide and/or amongst students receiving behavioral interventions
- Reduction in chronic behavior referrals at targeted campuses
- Improved intervention success rates
- Reduced disproportionality indicators

Guidance & Counseling will improve student access to responsive emotional and mental health support services by reducing non-counseling administrative responsibilities, clarifying counseling priorities, and increasing student-facing counseling support opportunities across campuses.

District Goal Alignment: Goal 3: Organizational Effectiveness & Staff Retention

Measures of success:

- Increased student access to counseling services
- Reduced counselor administrative task burden
- Improved student and parent perception data regarding access to mental health supports
- Improved counselor role clarity

## Teaching & Learning

Teaching & Learning provides leadership and support for curriculum, instruction, assessment, instructional materials, and professional learning. The department works with campuses and educators to support high-quality instruction, academic programs, continuous improvement, accountability and specialized programming across grade levels and content areas.

### 2026-27 Department Goals

Teaching & Learning will strengthen grading, feedback, and instructional expectations to ensure campuses align their practices with the district's standards of mastery and student accountability.

District Goal Alignment: Goal 1: Instructional & Grading Consistency

Measures of success:

- Reduced variability in grading and assessment practices
- Increased instructional consistency walkthrough indicators
- Improved staff understanding of grading/retesting expectations

Teaching and Learning will monitor and promote enrollment in CTE (Career and Technical Education) Programs of Study resulting in a Completer status and/or success on an Industrial Based Certification.

District Goal Alignment: Goal 2: Future-Ready Learning & Postsecondary Readiness

Measure of success: Increased student participation in identified CCMR-aligned programs, pathways, and learning experiences

## Technology, Media & Library Services

Technology, Media & Library Services supports the systems, tools and services that enable teaching, learning and district operations. The department includes business support applications, instructional technology, library services, network operations, and student information services, with support for infrastructure, cybersecurity, enrollment, campus technology, and enterprise workflows.

### 2026-27 Department Goals

Technology & Media Services will implement a standardized PowerSchool Analytics and Insights dashboard for teachers that improves access to actionable student support data and strengthens decision-making.

District Goal Alignment: Goal 3: Organizational Effectiveness & Staff Retention

Measures of success:

- Dashboard adoption/utilization rates
- Increased teacher access to actionable intervention data
- Decrease in the number of places staff go to find student data
- Partnership with other departments for support and model effective use of the dashboard

Technology & Media Services will develop and implement district guidance and ongoing professional learning that promotes balanced, intentional, and effective student technology use in learning environments.

District Goal Alignment: Goal 2: Future-Ready Learning & Postsecondary Readiness

Measures of success:

- Increased staff understanding of balanced technology use
- Student/teacher perception of technology use through Sogolytics feedback survey
- Analytics of use and time spent on district digital applications by students

# DEBT SERVICE FUND

The Debt Service Fund is used to pay principal and interest on debt incurred through the sale of bonds. The proceeds from bonds are used to finance long-term improvements to existing facilities as well as to build and equip new schools. For cash flow purposes, the District budgets for debt service using a calendar year rather than our fiscal year.

## Outstanding Debt

Voters authorize school bonds through bond elections, and the District sells those bonds over time as we are ready to finance new projects. Principal and interest payments on those bonds are due periodically throughout the year, with the largest payments occurring in August and February.

| CALENDAR YEAR | PRINCIPAL   | INTEREST   | TOTAL DEBT PAYMENT |
|---------------|-------------|------------|--------------------|
| 2026          | 108,821,873 | 86,447,365 | 195,269,238        |
| 2027          | 112,325,219 | 82,943,627 | 195,268,846        |
| 2028          | 114,102,326 | 81,168,612 | 195,270,938        |
| 2029          | 130,750,115 | 64,520,135 | 195,270,250        |
| 2030          | 128,627,801 | 66,641,538 | 195,269,339        |

## Revenue

Frisco ISD has issued all but \$32 million of authorized debt from our 2018 bond program, and the debt capacity chart on the previous page indicates that we can finish out that bond program using our current \$0.27 debt tax rate or a lower one.

The Debt Service Fund budget maintains the District's current debt service tax rate while continuing the District's strategy of refinancing debt to reduce long-term costs and shorten repayment schedules.

Through proactive management of its debt portfolio, Frisco ISD saved taxpayers more than \$152.2 million in interest costs during the 2025-26 school year, bringing total refinancing savings over the past decade to more than \$470.7 million. These efforts help reduce long-term costs while ensuring the District can continue to maintain the facilities and infrastructure expected by the Frisco ISD community.

| REVENUE AVAILABLE FOR APPROPRIATION | FY 2025 ADOPTED BUDGET | FY 2026 ADOPTED BUDGET | FY 2027 ADOPTED BUDGET | INCREASE (DECREASE) FROM PRIOR YEAR | PERCENT CHANGE |
|-------------------------------------|------------------------|------------------------|------------------------|-------------------------------------|----------------|
| Local Tax Collections               | 167,766,900            | 190,947,300            | 175,792,100            | (15,155,200)                        | (8%)           |
| Investment Earnings                 | 3,500,000              | 4,000,000              | 4,000,000              | -                                   | 0%             |
| State Aid for Homestead Exemption   | 12,534,000             | 13,855,000             | 17,786,000             | 3,931,000                           | 28%            |
| Total Revenue Available to Pay Debt | 183,800,900            | 208,802,300            | 197,578,100            | (11,224,200)                        | (5%)           |

Since 2023, the state-mandated homestead exemption has been raised twice – from \$40,000 to \$100,000 in 2023 and from \$100,000 to \$140,000 in 2025. School districts were granted additional state aid to hold us harmless for the loss in debt service tax revenue. We expect this additional state aid to at least temporarily offset the need for TIRZ funds in the Debt Service Fund until new bonds are authorized, at which point we may need to use TIRZ funds to help maintain our tax rate.

## Debt Capacity

The portion of our tax rate that generates revenue to pay debt service, known as the I&S rate, is calculated each year by dividing our annual principal and interest payments by the total taxable value of properties located within our jurisdiction. The I&S tax rate is capped at \$0.50 per \$100 of value, so we continuously monitor our debt capacity, which is the total amount of debt we could pay at any given tax rate. Frisco ISD's I&S tax rate has been \$0.27 per \$100 valuation since 2018.

## Notes to the Multi-Year Financial Plan

1. Principal and interest payments are budgeted on a tax year (September-August) rather than a fiscal year (July- June) to coincide with the timing of property tax receipts and to ensure enough tax is levied to make a full year's debt service payments.
2. This financial plan does not include any future bond sales to finance capital projects.
3. The Board of Trustees strives to maintain a Debt Service fund balance of approximately 10% of next year's debt service after the August debt service payment, since the Debt Service budget is based on a September-August tax year. A higher-than-targeted fund balance creates capacity to either retire debt early, issue additional debt, or lower future tax rates.

# CHILD NUTRITION FUND

The Child Nutrition Fund is used to account for revenues and expenditures related to the school lunch and breakfast program. Expenditures are funded from cafeteria sales and state and federal grants.

## Revenue

Child nutrition revenue is driven by cafeteria sales and participation in the National School Lunch & Breakfast programs, which provide free or reduced-cost meals to economically disadvantaged students. Participation rates declined slightly during the 2025-26 school year. The revenue budget for the 2026-27 school year was developed using similar participation rates but considering the expected decline in enrollment.

## Changes in Appropriations

The Child Nutrition payroll budget reflects the staff raises presented in the compensation plan; however, the entirety of the 2% raise planned to be covered through savings from attrition and vacancies, so the overall payroll budget is unchanged from last year. Other budgeted costs are based on actual spending during the 2025-26 school year since we do not expect any major changes in program operations.

<sup>1</sup> The Texas Department of Agriculture, which administers the National School Lunch and Breakfast programs in Texas, allows districts to keep up to 6 months average expenditures in fund balance in their Child Nutrition Funds. FISD informally targets 30% ending fund balance as a percentage of next year's expenditures.

# CAPITAL PROGRAM

For purposes of this section, capital expenditures include major facility maintenance, lifecycle replacement, renovation, construction, technology infrastructure, equipment, vehicles, and other long-lived assets funded through bond proceeds, capital fund balance, or other restricted capital resources.

## 2024 Bond Program

Frisco ISD voters rejected three bond propositions in November 2024. The proposed bonds included:

- \$986 million for 25-year campus refreshes, a Staley Middle School replacement, furniture and equipment, general facility maintenance, paving and landscape repairs, safety and security upgrades, transportation, and replacement turf at physical education facilities.
- \$88.2 million for technology replacements for staff and students, as well as a network update and additional wireless access points
- \$11.2 million for an outdoor tennis center

The proposed bond was projected to maintain the district's facilities through 2030 and provide a 5-year rotation for technology and equipment.

## Previous Bond Programs

In May 2014, Frisco ISD voters approved a \$775 million bond program. As of the 2024-25 school year, all 2014 bond projects have been completed. A list of projects financed by those bonds can be found on the District's [bond website](#).

In November 2018, Frisco ISD voters approved a \$691 million bond package to provide funding to build four new schools and maintain and repair existing facilities. Funds will also provide additional resources for classroom technology and school security, as well as additional student opportunities in academics, fine arts, and athletics. The bond program was intended to take the District through 72,000 students or the end of the 2025-26 school year.

Materials prices and labor costs for construction projects have increased dramatically since 2020, causing many of the 2018 bond projects to exceed their budgeted cost in the bond program. FISD, with the help of the Bond Committee and approval from the Board of Trustees, was able to repurpose funds from the 2014 bond program, to cover construction overruns without exceeding the total amount of debt authorized by voters. A list of projects financed by those bonds can be found on the District's [bond website](#).

## Current Capital Plan

Capital projects are identified through facility condition reviews, technology and equipment lifecycle schedules, safety/security assessments, instructional program needs, transportation replacement schedules, and input from campus and department leaders. Projects are prioritized based on safety, instructional continuity, asset condition, regulatory or operational need, remaining bond authorization, available capital fund balance, and the ability to defer the project without increasing long-term cost or

operational risk.

After the failure of the 2024 bond program, District leaders revised our capital plan to:

1. Complete in-progress projects from the 2018 bond program
2. Maintain infrastructure and pay for high-priority capital projects that were expected to be financed by the 2024 bond program
3. Ensure funds are available for emergency facility maintenance

The plan reprioritized funds remaining from the 2018 bond program and the District's local capital fund balance. It also includes the use of projected revenue to be collected from Frisco ISD's [Tax Increment Reinvestment Zone](#). The revised capital plan is expected to allow FISD to maintain critical infrastructure and instructional programs through the end of the 2027 calendar year.

The Capital Projects Fund is not adopted as part of the District's annual operating budget. Because capital projects often span multiple fiscal years, Frisco ISD uses project-based budgeting to monitor voter-authorized bond programs and other capital initiatives from authorization through completion.

The schedule below provides a project-level summary of major active capital projects, including total project budget, project-to-date spending, and remaining budget. This format is intended to give readers a clearer view of the status of ongoing capital work and the resources still available to complete each project.

| PROJECT CATEGORY     | PROGRAM     | PROJECT                         | PROJECT STATUS | ORIGINAL PROJECTED COST (2018 BOND PROGRAM) | REVISED CAPITAL PLAN (AS OF JAN 2026) | TOTAL SPENT + ENCUMBERED (AS OF MAY 2026) | PROJECT BALANCE REMAINING |

\*Following the failure of the 2024 bond program, the 2024 bridge plan uses remaining funds from completed or paused 2018 bond projects, along with available TIRZ revenue, to fund high-priority capital projects.

\*\*General Maintenance includes paint, carpet, mechanical systems, athletic resurfacing, and other as-needed building maintenance

## Operating Budget Impact

The capital projects included in this section are primarily facility maintenance, lifecycle replacement, and repair projects intended to preserve existing District assets. Because these projects maintain current facilities rather than add new campuses, expand building square footage, or create new programs, they are not expected to generate additional recurring operating costs beyond amounts already included in the District's General Fund operating budget.

In many cases, these projects are intended to reduce future operating pressure by addressing aging systems, extending the useful life of facilities, and lowering the likelihood of emergency repairs. Any routine maintenance, utilities, custodial services, or staffing associated with these facilities is already accounted for in the District's annual operating budget.

# INFORMATIONAL SECTION

# COMMUNITY PROFILE

Frisco ISD serves students in Collin and Denton counties, including most of the City of Frisco and portions of Plano, McKinney, and Little Elm. The District's 75-square-mile boundaries include a fast-changing community that has experienced decades of residential and commercial growth, strong family demand for high-quality schools, and increasing expectations for academic, extracurricular, and student support opportunities.

As the community matures, Frisco ISD's operating environment continues to evolve. Enrollment has shifted from rapid growth to gradual decline, while the District continues to serve a large and diverse student population across 12 high schools, 17 middle schools, 1 intermediate school, 43 elementary schools, and 3 special program schools. The following tables provide demographic, economic, and community context that help explain the factors influencing the District's budget, staffing, facilities, and long-term planning.

## District Statistics

|                              |        |
|------------------------------|--------|

# PROPERTY TAXES

Property tax revenue is the primary source of income for public school districts in Texas. Properties subject to school district ad valorem taxes are valued by independent centralized appraisal districts, while tax rates are set by the School Board. Frisco ISD contracts with the Collin County Tax Office to levy and collect property taxes on our behalf.

## Tax Rates

A school district's property tax rate is made up of a maintenance & operations (M&O) tax rate and, if applicable, an interest and sinking (I&S) tax rate. As its name suggests, the M&O tax rate provides funds for the maintenance and operations costs of a school district. The I&S tax rate provides funds for payment on the debt that districts issue to finance facilities and other capital expenditures. Tax rates are set per \$100 of taxable property value.

### Maintenance & Operations Tax Rate

To provide property tax relief to homeowners, the Texas Legislature has established a Tier One tax rate, called the maximum compressed rate (MCR) for each school district. This portion of the M&O tax rate is calculated annually by the Texas Education Agency based on individual district and state-wide property values. The MCR serves as the minimum tax rate required to receive 100% of the state's formula funding.

A district may adopt a Tier Two M&O tax rate to supplement the basic funding provided by Tier One. The maximum Tier Two M&O tax rate is \$0.17. A School Board may approve up to \$0.05 in the Tier Two tax rate, and voter approval is required for the remaining \$0.12. Frisco ISD is currently approved for a Tier Two M&O tax rate of \$0.13835.

### Interest & Sinking Tax Rate

When we issue debt to build new schools or pay for infrastructure improvements, we must collect enough tax revenue to make the principal and interest payments on that debt. If property values rise, we can pay off more debt without raising the debt service portion of our tax rate. The maximum I&S tax rate allowed by law for a school district is \$0.50.

Frisco ISD maintains one of the lowest debt service tax rates in Collin and Denton Counties because of the growth in our tax base and the healthy mix of residential and commercial property values.

| TAX YEAR          | M&O RATE | I&S RATE | TOTAL RATE PER \$100 VALUATION |
|-------------------|----------|----------|--------------------------------|
| 2022              | \$0.9429 | \$0.2700 | \$1.2129                       |
| 2023              | \$0.7575 | \$0.2700 | \$1.0275                       |
| 2024              | \$0.7552 | \$0.2700 | \$1.0252                       |
| 2025              | \$0.7494 | \$0.2700 | \$1.0194                       |
| 2026 <sup>1</sup> | \$0.7494 | \$0.2700 | \$1.0194                       |

<sup>1</sup> Estimated

The 2026 tax rate is projected based on preliminary certified values and was used to develop the 2026-27 budget. The actual 2026 tax rate will be adopted in August 2026, after the adoption of our budget and the publication of this book. The budget may be amended if needed for any change between the estimated tax rate and the adopted tax rate.

## Property Values

Except for certain exemptions provided by Texas law, all property in the District is subject to taxation by the District. Categories of exemptions applicable to the District include:

- Property owned by the State of Texas or its political subdivisions if the property is used for public purposes:
- Property exempt from ad valorem taxation by federal law
- Certain household goods, family supplies, and personal effects
- Farm products owned by the producers; certain property affiliated with charitable organizations
- Youth development associations, religious organizations, and qualified schools
- Designated historic sites; solar and wind-powered energy devices
- Most individually owned automobiles

Additionally, owners of agricultural, timber, and open space land may, under certain circumstances, request valuation of such land on the basis of productive capacity rather than market value.

The Collin and Denton Central Appraisal Districts provide certified estimates of property values each year at the end of April, which FISD uses to forecast property tax revenue for the coming budget year. The appraisal districts certify the final values in July, and monthly updates to the tax rolls are provided throughout the year to reflect changes in exemptions and value protest resolutions.

July certified values are typically lower than the April estimates because of value protests and late-filed exemptions. Therefore, property value projections used for FISD budget purposes are often more conservative than the certified estimates received from our appraisal districts.

| TAX YEAR          | TOTAL ASSESSED VALUES | LESS: EXEMPTIONS | TOTAL TAXABLE VALUES |
|-------------------|-----------------------|------------------|----------------------|
| 2022              | 64,689,385,957        | 10,271,387,707   | 54,417,998,250       |
| 2023              | 75,761,520,934        | 17,447,650,946   | 58,313,869,988       |

<sup>1</sup> The total tax levy includes adjustments made subsequent to the initial levy.

<sup>2</sup> Collections include penalties and interest.

<sup>3</sup> Estimated based on historical tax collections.

## Taxpayer Information

As property values rise, the District is required by state law to reduce the Tier One portion of our M&O tax. The formula is intended to limit increases in a homeowner's tax bill to 2.5% annually, but because Frisco ISD's taxable home values are rising faster than the state average, our homeowners tax bills are expected to increase by an average of 3.6%, or \$199.94 for the 2026 tax year.

School districts must adopt the tax rate calculated by TEA to receive full funding from the state, so we cannot provide property tax relief to our residents beyond what the state's formula allows.

Qualifying homeowners that file for the general residential homestead exemption, with the Central Appraisal District, receive a state mandated homestead exemption of \$140,000 to reduce the amount of taxes owed. An additional exemption is provided for those 65 years and older. Their tax levy is frozen at the amount when they receive the exemption and can never go up even as their home value or tax rate increases.

| TAX YEAR          | TAX RATE | AVERAGE HOMEOWNER'S ASSESSED VALUE | HOMESTEAD EXEMPTION | AVERAGE HOMEOWNER'S TAXABLE VALUE | AVERAGE HOMEOWNER'S TAX BILL |
|-------------------|----------|------------------------------------|---------------------|-----------------------------------|------------------------------|

Source: Collin County Tax Office and Frisco ISD records

<sup>1</sup> Estimated based on preliminary certified property values

The combination of well-planned development and the attractiveness of the area for families has had a positive impact on property values over time. Frisco ISD's tax base is comprised of a healthy mix of residential and commercial properties. About 66% of property value in FISD's jurisdiction comes from single family residential property. Additionally, the District's ten largest taxpayers account for only 4%

of our total taxable value, so the loss of any single taxpayer would not have a significant impact on our ability to provide educational services or meet future financial obligations.

## ENROLLMENT

Projecting enrollment growth remains one of the most significant challenges we face for both budgeting and school building needs. After decades of hyper growth, Frisco ISD's enrollment has begun to decline. Just a few years ago, the district was expected to reach a peak of 80,000 students over the next decade. Now, demographic data shows we peaked at 67,612 students in March 2023.

We develop our budget using an enrollment snapshot taken statewide on the last Friday in October of each year. FISD's third-party demographer, PASA, provides estimates of future enrollment each fall. We use those future estimates and a multi-year financial plan to help evaluate the sustainability of our decisions.

Frisco ISD's internal demographer uses PASA's projections to develop enrollment projections for each of our 76 campuses, which are used to inform campus zones and staffing needs as well as campus budgets for the upcoming school year.

### Access Frisco

To counter declining enrollment, the Access Frisco program extends an opportunity for students outside Frisco ISD's attendance boundaries to enroll in a Frisco ISD school. We began serving Access Frisco students in Kindergarten through 7th grade at select FISD campuses during the 2025-26 school year. The program has been expanded for 2026-27 to allow Access Frisco students a pathway to graduate from FISD. Applications are now open to students entering Kindergarten through 9th grade at any campus below 90% capacity.

Our demographers projected a 1,477 student decline from 2025-26 to 2026-27, but we were able to

enroll 870 new students for the 2026-27 school year through Access Frisco, bringing the budgeted decline down to just over 600 students.

| FISCAL YEAR       | TOTAL ENROLLMENT | ELEMENTARY (PREK-5TH GRADE) | MIDDLE (6TH-8TH GRADE) | HIGH (9TH-12TH GRADE) |

# PERSONNEL RESOURCES

## Campus-Based Staff

FISD utilizes staffing ratios to develop preliminary staffing allocations. Then, adjustments are made for special conditions and campus-specific circumstances. A variety of factors are considered during the staffing process and throughout the year as enrollment changes. These factors include, but are not limited to administrator input, available physical space, instructional arrangements and course requests, and the availability of qualified staff.

### Staffing Drivers

The major driver of campus-based staffing formulas is enrollment. The district employs Population & Survey Analysts (PASA), a third-party demographic firm, to assist in developing student enrollment projections and trends. Projections are updated annually.

Due to declining enrollment, FISD began reducing staffing allocations during the 2024-25 school year and will continue to do so annually in alignment with demographic projections.

## District-Level Staff

District-level staffing allocations are based on the needs of individual departments. Like budget requests, staffing requests are proposed to the Instructional Support Team, and approved requests are forwarded to Human Resources for allocation.

## Position Inventory

Each position is provided with a unique position inventory number that corresponds to the location and hiring manager of the given position. Vacancies are verified in the position inventory system before a hiring manager can make a recommendation to hire. Position inventory is reviewed at least annually with hiring managers to confirm the accuracy of personnel, allocated positions, departments, and locations.

# COMPENSATION PLAN

## Compensation Philosophy

Frisco ISD is committed to a fair and competitive employee compensation program that cultivates, inspires, and engages productive and committed employees who support the district's mission to know every student by name and need.

The District strives to remain competitive in the labor market to attract and retain qualified personnel while also rewarding continued service to the FISD.

We are committed to carefully considering the levels of skill, experience, and responsibility required for different jobs.

Frisco ISD is an equal opportunity employer and does not discriminate on the basis of race, color, religion, sex, national origin, age, disability, sexual orientation, gender identity, gender expression, genetic information, or any other basis prohibited by law.

## 2026-27 Pay Raises

All employees serving in a budgeted, allocated position as of May 15, 2026, who have received a satisfactory evaluation at the end of their contract year are eligible for a pay raise.

### All Employees

All eligible employees will receive 2% of their base wages.

- The raise for central office professionals will be capped at \$2,000.
- Teacher salaries after the raise are guaranteed to meet or exceed the new hire pay scale.
- Employees on stepped pay plans will receive the greater of their next step or the raise.

## SPECIAL EDUCATION TEACHERS & AIDES

Stipends for Special Education Teachers will increase based on the program they serve:

| PROGRAM(S)           | 2025-26 STIPEND | 2026-27 STIPEND | INCREASE  |
|----------------------|-----------------|-----------------|-----------|
| Resource & Inclusion | --              | \$1,200         | + \$1,200 |
| ALC, FA, Life Skills | \$2,000         | \$3,000         | + \$1,000 |
| SAIL, SBS, SLC       | \$2,000         | \$5,000         | + \$3,000 |

Instructional paraprofessionals serving one of the special education programs listed above will receive an increase of \$0.25 per hour in addition to the raise.

## Market Equity Adjustments

Specific positions have been adjusted within the 2026-27 Salary Guides to remain competitive with the local market. Employees in those pay grades may receive equity adjustments in addition to their pay raise to maintain the integrity of the pay grade and ensure equitable compensation for new hires with the same years of experience. The Compensation Team is responsible for calculating equity

adjustments on an individual basis.

## 2026-27 Salary Guides

Frisco ISD's Compensation Plan includes pay ranges for each job type and supplemental earnings and benefit programs that the Board of Trustees approves. Employees are paid according to the district-assigned pay scale for their respective positions. Positions with a daily rate or annual salary are considered exempt from overtime requirements under the Fair Labor Standards Act (FLSA), while positions with an hourly rate are non-exempt.

### CLASSROOM TEACHERS

The Texas Education Code defines classroom teachers as employees who teach in an academic instructional setting or a career and technology (CTE) instructional setting for an average of four (4) or more hours per school day and who work in a role that would typically require possession of a State Board for Educator Certification (SBEC) teaching certification.

Salaries for classroom teachers listed below are for 184 contract days and may be prorated for additional days. Salary placement for newly hired Frisco ISD teachers is based upon creditable years of service.

Additional stipends for which an employee may be eligible can be found in the Stipend section of this document. Classroom teachers holding a Master's degree or a Doctorate from an accredited college or university will receive an educational stipend in addition to other stipends they may be eligible for.

| YEARS OF<br>EXPERIENCE | NEW HIRE<br>SALARY | YEARS OF<br>EXPERIENCE | NEW HIRE<br>SALARY |
|------------------------|--------------------|------------------------|--------------------|
| 0*                     | \$64,000           | 13                     | \$71,050           |
| 1                      | \$64,250           | 14                     | \$71,500           |
| 2                      | \$64,500           | 15                     | \$72,500           |
| 3                      | \$64,750           | 16                     | \$72,950           |
| 4                      | \$65,000           | 17                     | \$73,400           |
| 5                      | \$67,000           | 18                     | \$73,850           |
| 6                      | \$67,425           | 19                     | \$74,300           |
| 7                      | \$67,850           | 20                     | \$75,300           |
| 8                      | \$68,275           | 21                     | \$75,750           |
| 9                      | \$68,700           | 22                     | \$76,200           |
| 10                     | \$69,700           | 23                     | \$76,650           |
| 11                     | \$70,150           | 24                     | \$77,100           |
| 12                     | \$70,600           | 25+                    | \$78,100           |

*\*Uncertified teachers will receive \$1,000 less than the salary listed in the table above.*

## CAMPUS PROFESSIONALS: INSTRUCTIONAL SUPPORT

Instructional support professionals are salaried employees who provide support to students on and/or staff on campuses. Professionals who may hold a teaching certification but are not employed in a role that teaches in an academic or CTE instructional setting at least half-time are included in this category.

Compensation for these employees is determined by evaluating the job description for each role in the pay plan. For new hires, relevant experience, years of service, job classification, level of education, market data, and number of days worked all factor into an individual's salary computation.

The pay rates in this pay plan equate to the minimum and median (midpoint) daily rate for the pay grade. Actual employee salaries within this pay grade will vary based on the number of days in the employee's contract.

Additional stipends for which an employee may be eligible can be found in the Stipend section of this document. Employees in certain positions who hold a Master's degree or Doctorate from an accredited college or university may receive an education stipend in addition to other stipends they may be eligible for.

| PAY GRADE | RATE TYPE | MINIMUM  | MIDPOINT |
|-----------|-----------|----------|----------|
| IPE I     | Daily     | \$336.96 | \$404.35 |
| IPE II    | Daily     | \$342.50 | \$411.00 |

## CAMPUS ADMINISTRATORS

### PRINCIPALS

Principals are compensated using a stepped pay scale. New principals are hired at an "entry-level" salary equivalent to zero years of experience in the position, and their salary increases incrementally each year until they reach "experienced" pay. Candidates with one or more years of experience in an equivalent position may be hired at a step that equates to their relative experience.

| PAY GRADE | ENTRY-LEVEL | STEP 1    | STEP 2    | EXPERIENCED |
|-----------|-------------|-----------|-----------|-------------|
| 500       | \$90,000    | \$95,000  | \$100,000 | \$105,000   |
| 501       | \$95,500    | \$100,500 | \$105,500 | \$110,500   |
| 502       | \$98,000    | \$103,000 | \$108,000 | \$113,000   |
| 503       | \$117,500   | \$122,500 | \$127,500 | \$132,500   |

### ASSISTANT PRINCIPALS

Assistant principals are salaried professionals whose compensation is determined by evaluating the job description for each role in the plan. For new hires, relevant experience, years of service, job classification, level of education, market data, and number of days worked all factor into an individual's salary computation.

The pay rates in this pay plan equate to the minimum and median (midpoint) daily rate for each pay grade. Actual employee salaries within this pay plan will vary based on the number of days in the employee's contract.

| PAY GRADE | RATE TYPE | MINIMUM  | MIDPOINT |
|-----------|-----------|----------|----------|
| 504       | Daily     | \$357.31 | \$428.78 |
| 505       | Daily     | \$372.31 | \$446.75 |
| 506       | Daily     | \$400.31 | \$480.35 |

## ADMINISTRATIVE PROFESSIONALS

Administrative professionals include support positions that do not directly serve students on campuses. Compensation for these employees is determined by evaluating the job description for each role in the plan. For new hires, relevant experience, years of service, job classification, level of education, market data, and number of days worked all factor into an individual's salary computation.

The pay rates in this pay plan equate to the minimum and median (midpoint) daily rate for each pay grade. Actual employee salaries within this pay plan will vary based on the number of days in the employee's work calendar.

| PAY GRADE | RATE TYPE | MINIMUM  | MIDPOINT |
|-----------|-----------|----------|----------|
| 101       | Daily     | \$263.50 | \$316.00 |
| 102       | Daily     | \$286.50 | \$343.50 |
| 103       | Daily     | \$311.50 | \$373.50 |
| 104       | Daily     | \$336.50 | \$403.50 |
| 105       | Daily     | \$359.50 | \$431.50 |
| 106       | Daily     | \$393.00 | \$471.50 |

## PARAPROFESSIONAL & CLERICAL STAFF

Paraprofessionals and clerical staff include classroom instructional aides, campus office staff, and support staff in central administration. The pay rates in this pay plan equate to the minimum and median (midpoint) hourly rate for each pay grade. A newly hired employee's placement within the stated pay range is based on the employee's relevant experience, education, years of service, number of days worked, market data, and other relevant factors. Frisco ISD annualizes pay for hourly employees based on the number of days in the employee's work calendar.

| PAY GRADE | RATE TYPE | MINIMUM | MIDPOINT |
|-----------|-----------|---------|----------|
| 201       | Hourly    | \$15.00 | \$18.00  |
| 202       | Hourly    | \$15.90 | \$19.10  |
| 203       | Hourly    | \$17.05 | \$20.45  |
| 204       | Hourly    | \$17.80 | \$21.35  |
| 205       | Hourly    | \$19.10 | \$22.90  |
| 206       | Hourly    | \$20.95 | \$25.15  |
| 207       | Hourly    | \$22.85 | \$27.40  |
| 208       | Hourly    | \$24.85 | \$29.80  |
| 209       | Hourly    | \$26.75 | \$32.10  |

| PAY GRADE | RATE TYPE | MINIMUM | MIDPOINT |
|-----------|-----------|---------|----------|
| 210       | Hourly    | \$37.50 | \$45.00  |
| FAS       | Hourly    | \$25.75 | \$30.90  |

## AUXILIARY STAFF

Auxiliary staff are primarily employed in Child Nutrition, Custodial, Transportation, Maintenance, Security, and the Print Shop. The pay rates in this pay plan equate to the minimum and median (midpoint) hourly rate for each pay grade. A newly hired employee's placement within the stated pay range is based on the employee's relevant experience, years of service, special training, licensure or certifications, market data, number of days worked, and other relevant factors. Auxiliary staff include exempt and nonexempt employees. Frisco ISD annualizes pay for nonexempt employees based on the number of days in the employee's work calendar.

| PAY GRADE | RATE TYPE | MINIMUM  | MIDPOINT |
|-----------|-----------|----------|----------|
| 301       | Hourly    | \$15.00  | \$18.00  |
| 302       | Hourly    | \$15.50  | \$18.60  |
| 303       | Hourly    | \$16.50  | \$19.80  |
| 304       | Hourly    | \$17.50  | \$21.00  |
| 305       | Hourly    | \$20.15  | \$24.20  |
| 306       | Hourly    | \$22.40  | \$26.90  |
| 307       | Hourly    | \$23.90  | \$28.70  |
| 308       | Hourly    | \$25.35  | \$30.40  |
| 309       | Hourly    | \$26.90  | \$32.30  |
| 310       | Hourly    | \$28.90  | \$34.70  |
| 311       | Daily     | \$291.50 | \$350.00 |
| CES       | Hourly    | \$18.50  | \$22.20  |
| CMS       | Hourly    | \$20.15  | \$24.20  |
| CHS       | Hourly    | \$21.90  | \$26.30  |
| H01       | Hourly    | \$16.00  | \$19.20  |
| M05       | Hourly    | \$16.00  | \$19.20  |
| M08       | Hourly    | \$16.00  | \$19.20  |
| T05       | Hourly    | \$23.00  | \$27.60  |
| SM1       | Daily     | \$308.00 | \$369.60 |
| SML       | Daily     | \$362.32 | \$434.80 |

## TECHNOLOGY STAFF

Individuals in this pay plan provide technology services and support District-wide. The pay rates in this pay plan equate to the minimum and median (midpoint) hourly or daily rate for each pay grade. A newly hired employee's placement within the stated pay range is based on the employee's relevant experience, years of service, special training, licensure or certifications, market data, number of days worked, and other relevant factors.

Technology includes exempt and nonexempt employees. Actual employee salaries for exempt

employees within this pay plan will vary based on the number of days in the employee's contract. Frisco ISD annualizes pay for hourly employees based on the number of days in the employee's work calendar.

| PAY GRADE | RATE TYPE | MINIMUM  | MIDPOINT |
|-----------|-----------|----------|----------|
| 401       | Hourly    | \$17.75  | \$21.30  |
| 402       | Hourly    | \$22.75  | \$27.30  |
| 403       | Hourly    | \$27.30  | \$32.75  |
| 404       | Daily     | \$254.00 | \$304.50 |
| 405       | Daily     | \$273.00 | \$327.50 |
| 406       | Daily     | \$305.50 | \$366.50 |
| 407       | Daily     | \$331.50 | \$398.00 |
| 408       | Daily     | \$360.50 | \$432.50 |

## DISTRICT ADMINISTRATORS

The Administrator Pay Plan is designed for individuals serving in director-level positions and above. Administrators in pay grades 108 to 111 are compensated using a stepped pay scale. New administrators are hired at an "entry-level" salary equivalent to zero years of experience in the position, and their salary increases incrementally with each year until they reach "experienced" pay. Candidates with one or more years of experience in an equivalent position may be hired at a step that equates to their relative experience. Salaries for administrators in pay grades 112 to 114 are based on relevant experience, years of service, job classification, level of education, market data, and other relevant factors.

| PAY GRADE | ENTRY-LEVEL       | STEP 1    | STEP 2    | EXPERIENCED |
|-----------|-------------------|-----------|-----------|-------------|
| 108       | \$107,500         | \$112,500 | \$117,500 | \$122,500   |
| 110       | \$127,500         | \$132,500 |           | \$137,500   |
| 111       | \$142,500         | \$147,500 |           | \$152,500   |
| 112       | Minimum \$165,000 |           |           |             |
| 113       | Minimum \$200,000 |           |           |             |
| 114       | Minimum \$225,000 |           |           |             |

## Supplemental Earnings

Supplemental earnings are wages paid to active Frisco ISD employees in addition to their regular base salary. The District categorizes supplemental earnings into three categories: stipends, incentive pay, and supplemental pay beyond the normal job assignment.

## STIPENDS

Frisco ISD defines a stipend as a non-discretionary payment made to an employee on a regular or recurring basis throughout their duty period contract. The purpose of a stipend is to compensate an employee for duties outside their primary role, additional responsibilities, or consistent additional

time worked beyond their contracted hours or days.

The stipend pay schedule is annualized and represents compensation in addition to, but separate from, regular base wages for professional (exempt) employees. Stipend pay is determined based on purpose, market data, and district need. Stipends are prorated and paid “as earned” relative to the number of days worked.

| STIPEND TYPE                                                             | PAY RANGE          |
|--------------------------------------------------------------------------|--------------------|
| Educational Stipends (Teachers and some IPE)                             | \$1,000 - \$1,500  |
| Assignment Stipends (Based on duties assigned by the District or campus) | \$400 - \$9,000    |
| Special Education Stipends                                               | \$1,000 - \$5,000  |
| Fine Arts Stipends (All levels)                                          | \$750 - \$11,000   |
| Athletics Stipends (Middle School & High School)                         | \$1,000 - \$11,250 |

**INCENTIVE PAY**

This Compensation Plan permits the payment/award of incentive pay or pay for performance in excess of an employee's contract wages in accordance with Board Policies DEA (LEGAL) and DEA (LOCAL), so long as the payment serves a public purpose and is authorized by a resolution of the Board of Trustees.

The Board may approve incentive pay or bonuses to employees in acknowledgment of efforts, as incentive rewards for consistent employment with the District, or for other purposes. Incentives may also be disbursed to assist teachers in preparation for the upcoming school year (i.e., supply stipend). Incentive payments approved by the Board of Trustees will be paid in accordance with the adopted resolution. Incentive pay granted in one school year does not guarantee any similar payment the following year.

**SUPPLEMENTAL PAY BEYOND NORMAL JOB ASSIGNMENT**

**EXTRA DAY STIPEND – WORKING BEYOND NORMAL CALENDAR ASSIGNMENT**

In some situations, an employee’s ability to fulfill their current job requirements necessitates adding additional workdays to the employee’s contract year. If the job includes extra days, affected employees are paid their regular daily rate for each additional designated work day. Extra days are reviewed and approved annually based on need. The District does not guarantee compensation for extra days beyond those approved for the current school year.

**SUPPLEMENTAL PAY – WORKING BEYOND NORMAL JOB ASSIGNMENT**

Active employees who perform specific duties outside their regular contract responsibilities throughout the school year may be eligible for supplemental or “extra duty” pay. Any work performed outside of contract responsibilities must have the prior approval of a supervisor and will be paid at a rate commensurate with the specified assignment.

## TEACHER INCENTIVE ALLOTMENT (TIA)

Teacher Incentive Allotment (TIA) compensation is an annual allotment provided by the State and is subject to the availability of state funding allocations. Ninety percent (90%) of TIA compensation must be distributed toward teacher compensation on the campus where a TIA teacher is designated. TIA funds are distributed by August 31st of each year.

Teachers with a TIA designation will generate funds if they meet the following criteria:

- Are employed by the district as a teacher (087 Role ID) at winter class roster
- At least 50% of their time is spent directly working with students
- Met or will meet the creditable year of service requirement by the end of the school year

### MOVEMENT OF TEACHERS

- If a teacher relocates within the district during the school year, the teacher will receive the state-generated allotment of funds at the campus where the teacher is teaching during Winter Roster Verification.
- If a teacher leaves the district prior to Winter Roster Verification, they will not receive TIA funds from the district.
- If a TIA designated teacher retires from the district after the Class Roster Winter Submission, the teacher will receive the funding amount allocated to them based on the TIA approved by TEA. These funds will be paid prior to August 31st.
- If a TIA-designated teacher leaves the district for reasons other than retirement after the Class Roster Winter Submission but prior to TIA Payout, the teacher will not receive the funding amount allocated to them based on the TIA approved by TEA. The TIA funds will be re-distributed to teachers at the campus where the TIA designated teacher was employed at Class Roster Winter Submission.

### DEDUCTION INFORMATION

Actual TIA compensation amounts distributed will include deductions for federal income tax, Medicare tax, and TRS contributions as part of an employee's annual wages reported to the state and federal governments, as well as the Teacher Retirement System (TRS).

For more information about the TIA allotment calculations, see [TEA's Teacher Incentive Allotment page](#). For more information about the specific amount of TIA funds generated by TIA designated teachers at every campus across the state, see the [Teacher Incentive Allotment Funding Map](#).

## Amendments To The Compensation Plan

The Board of Trustees reserves the right to amend this compensation and benefits plan after the start of the fiscal year as required by law or administrative rule or if determined to be in the District's best interest.

# Employee Benefits

## HEALTH INSURANCE

FISD participates in TRS-ActiveCare, the state's health care plan for public school employees. Premiums for the TRS-ActiveCare plans are set annually by the Teacher Retirement System Board. They are regionalized based on the area of the state in which each school district is located. Region 10 TRS-ActiveCare rates will increase between \$58 and \$228 per month for the 2026-27 plan year, depending on the employee's chosen plan.

All FISD staff who work in a 15-hour or more per week position are eligible for health benefits through FISD that include the district contribution.

The following table provides premium rates for each health insurance plan offered to FISD employees through TRS-ActiveCare. Frisco ISD will contribute \$375 per month for participating employees during the 2026-2027 plan year.

| PLAN TYPE     | MONTHLY TRS-ACTIVECARE EMPLOYEE PREMIUMS<br>(after \$375 FISD contribution) |                  |                   |                   |
|---------------|-----------------------------------------------------------------------------|------------------|-------------------|-------------------|
|               | EMPLOYEE ONLY                                                               | EMPLOYEE & CHILD | EMPLOYEE & SPOUSE | EMPLOYEE & FAMILY |
| 1-HD          | \$253                                                                       | \$693            | \$1,321           | \$1,761           |
| Primary       | \$239                                                                       | \$669            | \$1,283           | \$1,713           |
| Primary +     | \$347                                                                       | \$853            | \$1,503           | \$2,008           |
| ActiveCare 2* | \$638                                                                       | \$1,132          | \$2,207           | \$2,466           |

\*The ActiveCare 2 plan is no longer enrolling new employees

## SUPPLEMENTAL BENEFITS

Frisco ISD offers a variety of supplemental insurance plans that employees can elect to help pay for

- Discounted Comprehensive Lab Testing through Function Health
- Prescription Savings
- Dental
- Vision
- Cancer
- Accident
- Disability
- Accidental Death & Dismemberment
- Hospital Indemnity
- Critical Illness
- Emergency Transportation
- Telehealth
- Voluntary Group Life
- Basic Life
- Individual Life
- Pet Insurance
- Legal
- Identity Theft

healthcare or other costs that their regular health insurance plan may not cover. All FISD staff working 20 hours or more per week are eligible for supplemental benefits.

Supplemental insurance options for 2026-2027:

FINANCIAL PLANNING BENEFITS

The District also provides financial planning benefits:

- Health Savings Account
- Healthcare Flexible Spending Account
- Dependent Care Flexible Spending Account
- 403(B), 457, and 401(A) Voluntary Retirement Plans

EMPLOYEE RETIREMENT

The District participates in a cost-sharing pension plan administered by the Teacher Retirement System of Texas (TRS). TRS contribution rates for both employees and employers are statutory. State contributions are made on our behalf for employees paid from non-federal sources. The District pays the state’s contribution for all employees paid from federal sources.

|                     | TRS CONTRIBUTION RATES FOR PAY RECEIVED ON OR AFTER: |          |
|---------------------|------------------------------------------------------|----------|
|                     | 9/1/2025                                             | 9/1/2026 |
| Member (Employee)   | 8.25%                                                | 8.25%    |
| State               | 8.25%                                                | 8.25%    |
| District (Employer) | 2.0%                                                 | 2.0%     |
| Pension Surcharge   | 16.5%                                                | 16.5%    |

District employees can participate in a 403(b) or 457 plan. Employees who choose to participate in one or both of those optional retirement plans and who have achieved at least one year of service (as defined by TRS) with the District are eligible for the Teacher/Employee Recruitment and Retention Program (TERRP).

Frisco ISD may provide a discretionary matching contribution to employees eligible for the TERRP, subject to the availability of excess revenue at the end of the preceding fiscal year. At the conclusion of each fiscal year, the District will assign excess unrestricted revenue, up to \$1,000,000, to fund discretionary matching contributions to the TERRP:

- The District will match 25% of each eligible employee’s voluntary retirement plan contributions, up to 1% of the contributing employee’s base wages, in a 401(A) plan.
- If the total eligible match claims exceed the reserved amount, the Board may formally resolve to fully fund the match. Otherwise, each eligible employee will receive a proportionate share of the available matching pool based on their individual eligible match amount relative to the total.

There is no guarantee that a match will be funded in any given year. Matching contributions, if any, will be calculated and deposited after the close of the preceding fiscal year.

## EMPLOYEE WELLNESS PROGRAM

Frisco ISD provides a comprehensive wellness program for employees.

### WELLNESS DAYS

Employees receive up to two (2) paid wellness days per school year to foster their well-being. Details about the use of these days are outlined in the Employee Handbook.

### EMPLOYEE CLINIC

Employees can receive no-cost acute care virtually or at an onsite clinic operated by Children's Health. Dependents of employees can visit the clinic for a \$10 copay. Employees and their dependents (aged 4 to 26) can visit the clinic whether or not they have health insurance through the District.

### FITNESS REIMBURSEMENT

Frisco ISD will reimburse 50% of a gym or group fitness program membership, up to \$22.50 monthly. To be eligible for reimbursement, employees must access a fitness center or program at least 10 days per calendar month. The benefit is available to all FISD employees working in a position that guarantees 20 hours per week or more.

### EMPLOYEE ASSISTANCE PROGRAM

Frisco ISD's Employee Assistance Program (EAP) provides a holistic assessment of and response to each employee's needs. Employees can access articles and tips, videos, and experts at no cost.

### FINANCIAL WELLNESS

The District provides free financial wellness resources to all employees through the FinPath Financial Wellness Program. Employees can schedule 1:1 time with a financial expert, access articles and videos, and attend workshops at no cost. Trusted Capital Group (TCG) also provides retirement planning services to FISD employees at no cost.

# OUTSTANDING DEBT

Frisco ISD issues voter-authorized general obligation bonds to finance long-term capital needs such as land acquisition, school construction, renovations, technology infrastructure, equipment, buses, and major facility improvements. Bond proceeds are accounted for in the Capital Projects Fund, while principal, interest, and related fees are repaid through the Debt Service Fund.

## Debt Management Strategy

Frisco ISD manages its debt portfolio to support voter-authorized capital needs while minimizing long-term costs to taxpayers. The District structures debt repayment to align the useful life of assets with the repayment period of the bonds used to finance those assets. The District also monitors interest rates, assessed property values, debt service fund balance, repayment schedules, and future capital needs to determine when debt can be refinanced, restructured, or retired early.

Frisco ISD's debt management strategy is designed to:

- maintain a favorable debt profile and strong credit ratings;
- preserve capacity for future capital needs;
- manage the Interest & Sinking tax rate responsibly;
- align repayment schedules with the useful life of financed assets;
- evaluate refunding and defeasance opportunities when savings are available; and
- demonstrate prudent stewardship of taxpayer resources.

The District works with its financial advisor, bond counsel, and other municipal finance professionals to evaluate market conditions and ensure debt issuances comply with state law, federal tax requirements, Board policy, and long-term financial planning objectives.

## Debt Policy and Legal Debt Limit

Texas school districts may issue bonds and levy taxes to repay bonded indebtedness when authorized by voters. Before issuing bonds, a district must demonstrate the ability to repay the proposed debt, together with existing debt subject to the test, from an Interest & Sinking tax rate that complies with state law.

Frisco ISD's outstanding general obligation bonds are secured by ad valorem taxes levied against taxable property within the District. These taxes are accounted for in the Debt Service Fund and may only be used to pay principal, interest, and related debt costs.

The District monitors its legal debt limit and tax rate capacity each year as part of its debt planning process. As of June 2025, Frisco ISD's outstanding debt represents approximately 33% of its legal debt margin, leaving capacity under the legal limit. Any future bond authorization would require voter approval before new debt could be issued.

## Credit Ratings

All of Frisco ISD's outstanding bonds are rated AAA through the Texas Permanent School Fund

Guarantee Program. The District also maintains strong underlying bond ratings of Aa1 from Moody's Investors Service and AA+ from S&P Global Ratings.

Strong bond ratings are important because they reflect the District's financial position, tax base, debt management practices, and overall credit quality. Favorable ratings help reduce borrowing costs by allowing the District to access the bond market at lower interest rates than would otherwise be available.

## **Impact on Current Operations**

Existing bonded debt is repaid from the Interest & Sinking tax rate, not the Maintenance & Operations tax rate. As a result, debt service payments do not directly reduce General Fund dollars available for salaries, instructional programs, utilities, transportation, maintenance, or other daily operating costs.

However, debt levels do affect the District's overall financial planning. Outstanding debt influences the total tax rate paid by taxpayers, future bond capacity, long-term capital planning, credit ratings, and community support for future capital needs. For this reason, the District evaluates debt service fund balance, repayment schedules, refunding opportunities, and projected tax base growth as part of its long-term financial strategy.

The 2026-27 Debt Service Fund budget was developed using the current Interest & Sinking tax rate of \$0.27 and assumes no new voter-authorized debt. The budget includes scheduled principal and interest payments on existing bonds and maintains sufficient fund balance to support the timing of the District's largest debt service payments.

## **Refunding and Early Debt Retirement**

Frisco ISD continuously monitors opportunities to reduce long-term debt costs through refunding, defeasance, and early principal retirement. Refunding allows the District to replace existing debt with new debt at more favorable interest rates or repayment terms when market conditions produce savings. Defeasance or early principal retirement allows the District to use available Debt Service Fund resources to reduce outstanding principal and lower future interest costs.

These strategies are evaluated in light of taxpayer savings, legal requirements, market conditions, future bond capacity, and the District's long-term capital needs.

## **Relationship to Future Capital Planning**

The District's existing debt reflects prior voter-approved bond programs that supported Frisco ISD's rapid growth and the construction, renovation, and equipping of schools and facilities. As enrollment patterns change and the District's facilities age, future capital planning will focus increasingly on maintaining existing buildings, replacing aging systems, refreshing technology and equipment, and preserving the quality of learning environments expected by the community.

In November 2024, voters rejected three bond propositions that would have authorized additional debt for future capital needs. As a result, the District revised its short-term capital plan and debt management strategy. The District will continue to evaluate capital needs, debt capacity, tax rate impact, and community feedback as it considers any future bond proposal.

As of June 2025, Frisco ISD has \$2.1 billion of general obligation bonds outstanding and \$32 million of authorized but unissued debt remaining from the 2018 bond program.

| DESCRIPTION                                                | ORIGINAL<br>ISSUE<br>AMOUNT | INTEREST<br>RATE(S) | MATURITY<br>DATE | PRINCIPAL     | 2026-27<br>PRINCIPAL<br>DUE <sup>1</sup> | 2026-27<br>INTEREST<br>DUE <sup>1</sup> |

<sup>1</sup> Debt service is budgeted on a calendar year rather than a fiscal year to coincide with the timing of property tax receipts. Principal and interest payments in the table above will be made between February and August 2027.

# ACCOUNTABILITY & ACADEMIC PERFORMANCE

The Texas Education Agency compiles annual Texas Academic Performance Reports (TAPR) for each district and campus. The TAPR pulls together a wide range of information on student performance, disaggregated by student groups, including ethnicity and socioeconomic status. The TAPR also provides extensive information on school and district staff, programs, and student demographics.

Frisco ISD's most recent TAPR, for the 2024-25 school year, can be found on [TXschools.gov](https://txschools.gov).

In addition to the TAPR, Frisco ISD has its own local accountability system, which is a key component of our Dynamic Organizational Strategy. Local accountability is a direct response to the fact that test-based state accountability systems fail to offer much information or insight into the actual changes or improvements that need to occur within a school. It is based upon the premise that schools exist to serve students, their parents, and their communities and that accountability should first align with that purpose.

FISD's local accountability system:

- Is driven by the unique needs of the students and the values and expectations of the community it serves, as compared to the one-size-fits-all approach that is currently used.
- Includes parents, community members and educators working in partnership to identify meaningful indicators of progress and/or successes unique to the Frisco ISD community.
- Supports efforts to innovate and customize learning experiences based on the needs and interests of our students and community.
- Recognizes that schools are accountable for the capacities, requirements, principles, and infrastructure necessary to create and sustain a successful learning organization.
- Is an engine of meaningful change for schools, not another report card.

FISD's annual [District Accountability Report](#) provides information to schools and communities about the District's overall effectiveness through the lens of our [Future-Ready Framework](#).

The following pages explain district-wide academic accountability measures used to evaluate District performance and inform planning. Additional performance data, campus-level results, and Future-Ready Framework indicators are available in Frisco ISD's full [District Accountability Report](#), which is published on the District [local accountability website](#).

# STATE ACCOUNTABILITY

The overall design of the accountability system evaluates performance according to three domains: Student Achievement, School Progress, and Closing the Gaps. Below is a brief description of each domain.

- **Student Achievement** evaluates performance across all subjects for all students, on both general and alternate assessments, College, Career, and Military Readiness (CCMR) indicators, and graduation rates.
- **School Progress** measures district and campus outcomes in two areas: the number of students who grew at least one year academically (or are on track) as measured by STAAR results and the achievement of all students relative to districts or campuses with similar economically disadvantaged percentages.
- **Closing the Gaps** uses disaggregated data to demonstrate differentials among racial/ethnic groups, socioeconomic backgrounds and other factors. The indicators included in this domain, as well as the domain's construction, align the state accountability system with the Every Student Succeeds Act (ESSA).

## RATING SYSTEM

Districts and campuses receive an A, B, or C rating for overall rating and for performance in each domain. Districts and campuses that do not meet the performance targets to earn at least a C are assigned a rating of "Not Rated."

Frisco ISD is the largest school district in the state to receive an A rating and the only school district with more than 50,000 to receive an A. Dig into the details and see past state accountability ratings online at [txschools.gov](https://txschools.gov).

**STUDENT  
ACHIEVEMENT**  
92 out of 100

**SCHOOL  
PROGRESS**  
83 out of 100

**CLOSING THE  
GAPS**  
90 out of 100

## CAMPUS ACCOUNTABILITY RATINGS

| SCHOOL                    | OVERALL RATING | OVERALL SCORE |
|---------------------------|----------------|---------------|
| <b>ELEMENTARY SCHOOLS</b> |                |               |
| Allen Elementary          | A              | 90            |

STATE OF TEXAS ASSESSMENTS OF ACADEMIC READINESS (STAAR) DATA

STAAR provides one statewide measure of how well students have mastered the Texas Essential Knowledge and Skills in tested subjects and grade levels. The results help Frisco ISD compare student performance with regional and statewide outcomes, identify trends, and determine where additional attention may be needed.

Frisco ISD students again outperformed the state across every tested grade level and subject in spring 2026. These results reflect the work of students and educators throughout the year, but they are not the only measure of student learning or District effectiveness.

Understanding STAAR Performance Levels

Approaches Grade Level indicates some knowledge of the course content, but the student may be missing critical elements and need additional support.

Meets Grade Level indicates strong knowledge of the course content and shows that the student is prepared to progress to the next grade.

Masters Grade Level indicates mastery of the course knowledge and skills and shows that the student is on track for college and/or a career.

STAAR Performance (All Grades, All Subjects)

- Students enrolled for 3 years or less
- Students continuously enrolled for more than 3 years

STAAR Performance (All Grades, All Subjects)

CONTINUOUS ENROLLMENT IN FISD

Data shows that students who have been continuously enrolled in FISD for more than three years demonstrate higher rates of content mastery than students who have attended FISD for three years or less.

## Reading/Language Arts STAAR Performance (All Grades)

The Reading/Language Arts (RLA) STAAR assesses students in grades 3-8 as well as high school students taking English I or English II. **92% of FISD students scored Approaches or better on the RLA STAAR.**

## Math STAAR Performance (All Grades)

The Math STAAR assesses students in grades 3-8 as well as high school students taking Algebra I. **88% of FISD students scored Approaches or better on the Math STAAR.**

## Science STAAR Performance (All Grades)

The Science STAAR assesses students in grades 5 and 8, as well as high school students taking Biology. **92% of FISD students scored Approaches or better on the Science STAAR.**

## Social Studies STAAR Performance (All Grades)

The Social Studies STAAR assesses students in grade 8 as well as high school students taking US History. **92% of FISD students scored Approaches or better on the Social Studies STAAR.**

# BENCHMARKING

## Financial Benchmarking

Frisco ISD performs financial benchmarking annually as part of our budget development process. This benchmarking compares Frisco ISD's spending per student and key staffing ratios to nine other "peer" districts across the state. The purpose of this benchmarking is to identify spending efficiencies and ensure our spending is in line with other large, high-performing districts.

Peer districts were chosen based on their compatibility with Frisco ISD in the areas of enrollment and demographics, accountability ratings, district maturity, and school footprint.

| DISTRICT        | 2025 ENROLLMENT | 2025 ACCOUNTABILITY RATING |
|-----------------|-----------------|----------------------------|
| Clear Creek ISD | 39,684          | B (88)                     |
| Conroe ISD      | 72,914          | B (85)                     |
| Denton ISD      | 33,329          | B (80)                     |
| Frisco ISD      | 65,289          | A (90)                     |
| Garland ISD     | 51,021          | B (84)                     |
| Keller ISD      | 32,042          | B (85)                     |
| Leander ISD     | 42,608          | B (88)                     |
| Lewisville ISD  | 47,876          | B (81)                     |
| Plano ISD       | 46,612          | B (82)                     |
| Round Rock ISD  | 46,954          | B (87)                     |

[Read the full financial benchmarking report.](#)

## Revenue & Expenditures Per Student

- Our operating revenue per student was higher than our peers for the first time in 2025 because of the change in TIRZ revenue utilization
- Our peers have larger low-socioeconomic populations, qualifying them for more grant funding (special revenue funds)
- Our peers spent, on average, \$651 more per student in the 2025 fiscal year than we did, and 67% of that additional spending came from special revenue (grant) funds.

## Functional Spending Per Student (General Fund)

- Frisco ISD spent an average of \$100 more per student on instruction than our peers in 2025.
- We rank high in extracurricular spending due to our student opportunity model.
- We spend about the same (3% of total expenditures) on general administrative costs as our peers.
- We spend less on operations than our peers because our buildings are (on average) newer and more energy efficient.
- We spend less on security than our peers because of our SRO partnerships with the cities of Frisco, Plano, McKinney, and Little Elm.
- Our general administrative expenses per student have increased compared to peers, largely due to marketing.
- The gap in spending for district operations is widening. Our peers have experienced greater increases in transportation and security costs than we have over the last 3 years.

Spending per student compared to the peer average

● Instruction & Instructional Support  
● Operations & Administration

## Staffing

- Frisco ISD generally operates leaner than most of our peers
  - We rank 9th in the ratio of students to total staff
  - We have fewer central administrative positions per student and per school than our peers
  - We rank 9th for the number of paraprofessional and auxiliary staff we employ
- A greater proportion of our staff are teachers compared to our peers

**Frisco ISD**

**14.6** Students:Teachers  
**8.1** Students:Total Staff

**Peer District Average**

**14.6** Students:Teachers  
**7.6** Students:Total Staff

# Salary Benchmarking

Frisco ISD performs salary benchmarking annually as part of our budget development process. This benchmarking compares compensation for key positions to nineteen (19) other local districts that we may compete with for staff using data provided by the Texas Association of School Boards (TASB). The purpose of this salary benchmarking is to determine whether our salaries, by employee group, are competitive with the local pay market. Information gathered from this benchmarking helps inform our annual compensation plan.

## Local Pay Market

- Allen ISD\*
  - Arlington ISD
  - Carrollton-Farmers Branch ISD
  - Celina ISD
  - Dallas ISD
  - Denton ISD\*
  - Garland ISD
  - Grapevine-Colleyville ISD
  - Hurst-Euless-Bedford ISD
- Irving ISD
  - Keller ISD
  - Lewisville ISD
  - Little Elm ISD
  - Mansfield ISD
  - McKinney ISD
  - Mesquite ISD
  - Plano ISD
  - Prosper ISD

For certain positions, data from other districts not listed above and/or non-school markets may be reviewed for comparison.

\*Allen ISD and Denton ISD did not participate in TASB’s salary study. Only their teacher pay scales were included in our benchmarking.

## 2025-26 Teacher Pay Scale

### DISTRIBUTION OF FISD TEACHERS BY YEARS OF SERVICE

Other District Positions

- Not every position within each category is benchmarked. Benchmarks are meant to help us gauge competitiveness.
- We consider ourselves “in line with the market” (competitive) if positions fall between 90% and 110% of the market median. This range accounts for market-wide differences in tenure, job responsibilities, and/or the number of similar positions.
- Generally, we attempt to adjust pay scales for positions that fall below 90% of the market for 2 or more consecutive years, unless there is a reasonable explanation for the variance.
- The benchmark categories represent an average of several different types of positions that often aren’t comparable to one another (e.g., Accountants and Counselors both fall under “Professional Support”).

2025-26 Health Insurance Contributions

# GLOSSARY OF TERMS

**Adopted budget:** The budget that has been approved by the Board of Trustees and becomes the official financial plan for the fiscal year.

**Appraisal District:** A local government entity responsible for determining the market value of taxable property within a specific geographic area. The appraisal district sets property values used to calculate local property taxes for school districts and other taxing authorities. It operates independently of the school district and follows state guidelines for property valuation.

**Appraised value:** The dollar value assigned to property by a public tax assessor for purposes of taxation.

**Appropriation:** An authorization granted by the Board to make expenditures and to incur obligations for specific purposes.

**Assessed Value:** The taxable value of a property after exemptions have been applied; used to calculate property tax owed.

**Bond:** A form of long-term borrowing that school districts use to raise funds for major capital projects, such as constructing new schools, renovating facilities, or purchasing land. Bonds are repaid over time, typically with interest.

**Board of Trustees/School Board:** The body elected to govern the school district.

**Budget:** A financial plan that includes both estimates of revenues and expenditures for a specific period of time.

**Capital Projects:** The acquisition, improvement, or maintenance of long-term assets such as buildings, land, technology infrastructure, or major equipment.

**Debt Service:** The payment of principal and interest on long-term debt.

**Demographer:** A specialist who studies population trends and forecasts enrollment based on birth rates, housing development, and other data.

**Enrollment:** The total number of students officially registered and attending schools within the district. Enrollment figures are used to project funding, staffing needs, and facility planning.

**Expenditure:** The cost of goods received or services rendered whether paid or unpaid, including expenses, capital outlays, and debt service.

**Fiscal Year:** A 12-month accounting period used for budgeting and reporting purposes. Frisco ISD's fiscal year runs from July 1 to June 30.

**FTE (Full-Time Equivalent):** A measurement of staffing that combines part-time and full-time employees into a single, standardized metric.

**Function:** A numerical classification defined by the Texas Education Agency (TEA) that identifies the purpose of a financial transaction—what service is being provided.

**Fund Balance:** The difference between a fund's assets and liabilities. Fund balance reflects the net resources available at a given time.

**General Fund:** The primary operating fund of the district, which accounts for all financial resources except those required to be accounted for in other funds.

**I&S Tax Rate (Interest & Sinking):** The portion of the property tax rate that funds debt payments, such as bond principal and interest.

**M&O Tax Rate (Maintenance & Operations):** The portion of the property tax rate used for daily operational expenses like salaries, utilities, and instructional materials.

**Maximum Compressed Rate (MCR):** Set annually by the Texas Education Agency, the Maximum Compressed Rate is the lowest Maintenance & Operations (M&O) tax rate a school district can levy to generate its local share of the state's funding formula.

**Object:** A numerical classification that indicates the type of item or service purchased.

**Other Financing Sources/Uses:** Transfers of money between funds or other non-revenue sources that impact total available resources.

**PBB (Priorities-Based Budgeting):** A strategic approach to budgeting that allocates resources based on district priorities and student needs.

**Proposition:** A formal measure or question presented to voters during an election, often as part of a bond package or tax ratification process. Each proposition outlines a specific purpose for which funds will be used.

**Revenue:** Funds that the district receives from local, state, and federal sources.

**TEA (Texas Education Agency):** The state agency that oversees primary and secondary public education in Texas, including funding and accountability systems.

**TRS (Teacher Retirement System of Texas):** The Teacher Retirement System of Texas is the state-managed pension and health benefits program for public education employees.

**UIL (University Interscholastic League):** A Texas organization that governs extracurricular academic, athletic, and music competitions among public schools.
